**Regional/Article Report Presentation Assignment:**

For each part of the class, we will spend one day of class exploring the different countries/areas of the greater region we are studying. Students will sign up for a country/area and offer a 10-15 minute analytical summary to the class of the area’s cultural and political importance based on the Global Studies readers (and limited outside research, if desired). Students will also sign up for select articles from the World Press section of the Global Studies readers and offer a 10-15 minute précis and analytical report to the class.
