Standard A 3.1

Biology Cover Sheet

Students participating in the 1818 ACC Program through enrollment in BIOL 104 and 106 are assessed using the same methods (e.g., papers, portfolios, quizzes, labs, etc.) as students on campus. Because of the high value Saint Louis University and the College of Arts & Sciences place on individual departmental and faculty autonomy, rarely are any two syllabi identical, even among campus professors or instructors. The Biology Department allows considerable latitude among both on-campus and high school instructors regarding the number and types of assessments used. However, the sections of campus courses deliver several versions of the same semester exam, as do high school sections. Paired samples of BIOL 104 follow.
