Academic Support and Disability Services

In recognition that people learn in a variety of ways and that learning is influenced by multiple factors (e.g., prior experience, study skills, learning disability), resources to support student success are available on campus. Students who think they might benefit from these resources can find out more about:

Course-level support (e.g., faculty member, departmental resources, etc.) by asking COURSE INSTRUCTOR.

University-level support (e.g., TUTORING, WRITING SERVICES, DISABILITY SERVICES) by visiting the Student Success Center (BSC 331) or by going to www.slu.edu/success.

Students who believe that, due to a disability, they could benefit from academic accommodations are encouraged to contact Disability Services at (314) 977-8885 or visit the Student Success Center. Confidentiality will be observed in all inquiries.

Course instructors support student accommodation requests when an approved letter from Disabilities Services has been received and when students discuss these accommodations with the instructor after receipt of the approved letter.

New Academic Honesty Statement

This is the required academic honesty statement for the College:

The University is a community of learning, whose effectiveness requires an environment of mutual trust and integrity. Academic integrity is violated by any dishonesty such as soliciting, receiving, or providing any unauthorized assistance in the completion of work submitted toward academic credit. While not all forms of academic dishonesty can be listed here, examples include copying from another student, copying from a book or class notes during a closed book exam, submitting materials authored by or revised by another person as the student’s own work, copying a passage or text directly from a published source without appropriately citing or recognizing that source, taking a test or doing an assignment or other academic work for another student, securing or supplying in advance a copy of an examination or quiz without the knowledge or consent of the instructor, sharing or receiving the questions from an on-line quiz with another student, taking an on-line quiz with the help of another student, and colluding with another student or students to engage in academic dishonesty.

All clear violations of academic integrity will be met with appropriate sanctions. In this course, academic dishonesty on an assignment will result in an automatic grade of 0 for that assignment and a report of academic dishonesty sent to the Academic Honesty Committee of the College of Arts and Sciences. (Instructors can change the sanction specified in the italicized text.) In the case of Class B violations, the Academic Honesty Committee may impose a larger sanction including, but not limited to, assigning a failing grade in the course, disciplinary probation, suspension, and dismissal from the University.

Students should refer to the following SLU website for more information about Class A and B violations and the procedures following a report of academic dishonesty: http://www.slu.edu/x12657.xml
