PURPOSE
To ensure that all UMG providers, residents and billing staff are adequately educated and trained in the requirements and behaviors outlined in the UMG Compliance Policy.

POLICY
All UMG providers, residents, and billing staff must satisfactorily complete one annual compliance education program course developed and offered by the Compliance Department. The Compliance Department will assist in identifying UMG personnel and agents who must participate in Compliance Program. Additional compliance education will be offered as new rules and regulations are disseminated from regulatory agencies. Newly hired providers must complete initial compliance education before billing numbers are activated in the IDX system.
