

# SLU-Users How to Wireless

## Wireless Configurations for connecting to wireless at SLU

### Step by Step Instructions

1. **Click** the **Wireless Networks** icon
2. **Select** the **SLU-users** network from the list
3. **Enter** in your **SLU Net credentials**
  - a. **SLU Net ID** as the username
  - b. **SLU Net ID Password** for the password
4. **Click OK**
5. **You are now connected to SLU-users**

#### Having problems connecting?

- Try to forget (or remove) any SLUNet and/or SLUGuest connections
- Remove any pre-installed SLUNet profile
- Turn your wi-fi off and back on again

#### NOTES:

- ❖ Remember: Once you authenticate, you will always be able to connect. But, if you ever change your SLU Net ID Password, it will change your password on the wireless network as well.
- ❖ If a visiting professor needs access to the wireless, they will need to call the help desk at 977-4000 to set up a guest account.
- ❖ Visit [wireless.slu.edu](http://wireless.slu.edu) for more information

### Information

#### Why the change?

- SLU-users replaces older networks SLUNet and SLUNet-N
- Access is improved for all types of mobile devices, including Android devices
- Connecting is easier and quicker - just log in with your SLU Net ID and password
- Enhanced security behind-the-scenes meets industry standards
- SLU-users is the first step in a 48+ month plan to improve the wi-fi at SLU

#### Have any comments or suggestions?

Let us know, visit [wireless.slu.edu](http://wireless.slu.edu) and click on the Wireless Comment box

#### Still having problems connecting?
