The Wimba Classroom Setup Wizard tool checks that a computer is ready to use Wimba Classroom and all of its components. Follow the directions below before running the Setup Wizard for the first time. You also can run the Setup Wizard if any operational problems are experienced inside the Wimba Classroom.

### Running the Wimba Classroom Setup Wizard in Internet Explorer

1. Log in to the mySLU portal and enter your SLU Global course.

2. Click the link for the Wimba Classroom within your SLU Global course; a Wimba Classroom window will open.

3. Once the Wimba Classroom window opens, click on the Run Setup Wizard link.

4. The Wimba Classroom Setup Wizard will display, shown in Figure 1. Click on the Run Wizard button.

5. Click the Start button in the Welcome to the Setup Wizard window.
   a. The Setup Wizard will then check that your computer:
      i. Has the required Java plug-in installed
      ii. Is text/chat compliant
      iii. Has the correct signed applet
      iv. Is able to play audio
      v. Is able to make voice recordings
   b. You may receive a Blue Warning Bar at the top of your Setup Wizard. If so, click on the Bar and Install ActiveX, shown in Figure 2. The Setup Wizard will restart, follow steps 4 and 5.

6. Click on the Run and Accept buttons for Java, if prompted to install Java.

   **Note:** You may have to restart the Setup Wizard once you install Java.

7. Click on the Next button for Signed Applet.

8. Authorize the certificate by clicking the Run button on the Warning Security window that opens after clicking next.

9. Once you hear the audio played on the Testing WimbaMedia Audio Playback screen, shown in Figure 3, click Next.

10. Once you hear a set of tones, click the Talk button and speak into your microphone. If you hear your voice played back, click Next on the Setup Wizard window.

11. If your computer passes the Wizard, you will see the message, "Congratulations! Your computer has passed the Wizard.", shown in Figure 4.

12. Click the Launch button.

   **Note:** If you do not receive the Launch button, close the Wizard window, and click the Wimba Classroom link in SLU Global.
