EDUCATIONAL OBJECTIVES
This workshop has been designed to provide glaucoma specialists, glaucoma fellows and comprehensive ophthalmologists didactic and wet lab, hands-on experiences performing the surgical approaches and techniques used for implantation of newer surgical devices and techniques. Didactics will focus on indications, contraindications and risks and benefits of each glaucoma surgical technique. The participant will have exposure to the latest glaucoma techniques and surgical devices in the wet lab with pig eyes. Course participants will review relevant surgical anatomy and apply this to the different surgical techniques with hands-on experience for the procedures discussed.

CONTINUING EDUCATION
Saint Louis University School of Medicine designates this live activity for a maximum of 8.0 AMA PRA Category 1 Credit(s)™.

ACCRREDITATION
Saint Louis University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCMC) to provide continuing medical education for physicians. The education the participant gains through our CME activities does not satisfy training requirements to perform the surgery.
