Did you know? Exiting out of the system without signing out can cause other people with edit rights and the IRB Staff, to be locked out of the protocol (unable to edit). Sometimes a lock out issue will not resolve itself and has to be fixed by the eIRB support team. Please make sure when you are ready to close the eIRB system you click the "Sign Out" button instead of the red "X" button on your Internet browser window. Please see the attached tip.

For further tips or instruction, please see the eIRB user guides and quick sheets on the IRB web site. Previous tips may also be accessed here.
