eIRB is compatible with, and currently supported on, these Internet browsers: Internet Explorer, Mozilla Firefox or Safari. Though the University has recently switched SLU e-mail to Google Chrome, there are known functional issues when using eIRB in Chrome. To avoid any complications within the system, please only use Internet Explorer, Mozilla Firefox or Safari to access and use eIRB. The most current supported versions are listed on the Welcome page of eIRB (see attached). Choose the browser with which you are most comfortable. There will only be some small visual differences between each of the browsers, but content and function will not be different when using the appropriate supported browsers. Please see the attached tip.

For further tips or instruction, please see the eIRB user guides and quick sheets on the IRB web site. Previous tips may also be accessed here.
