Logging in to eIBC

To log into eIBC, go to https://eibc.slu.edu

On the Login screen, enter your SLU NET ID and password (same username and password used to access MySLU, Banner, etc.) in the respective fields, then click the “Login” button.

If your password is invalid, verify that you can log into password.slu.edu
If you can log into password.slu.edu, login to eIBC with the same password. If you are still having issues, call the help desk at 977-4000 and request a SLU NET Password reset.

To remain compliant with the SLU Information Technology Appropriate Use Policy and pertinent Federal Regulations, it is required that all users access the eIBC system only with their unique ID and password. Contact eibc@slu.edu with further access issues.
