SAINT LOUIS UNIVERSITY
TUBERCULOSIS SCREENING QUESTIONNAIRE

STUDENT NAME

BANNER ID

DATE OF BIRTH

Please answer the following questions:

☐ Yes  ☐ No  Have you lived or traveled for >2 months in Asia, Africa, Central or South America or Eastern Europe?

☐ Yes  ☐ No  Were you born on one of these continents?

☐ Yes  ☐ No  Have you ever been vaccinated with BCG?

☐ Yes  ☐ No  Have you ever had a positive TB skin test or history of active tuberculosis infection?

☐ Yes  ☐ No  Has anyone living in your household ever had a history of active tuberculosis?

☐ Yes  ☐ No  Have you worked or volunteered in a nursing home, hospital, homeless shelter, prison or other health care facility?

If the answer is NO to all of the above questions, no further testing or action is required. Please sign below and forward this form with your immunization record to Saint Louis University Student Health and Counseling. A physician’s signature is not required on this questionnaire if you answered NO to all the questions.

If the answer is YES to any of the above questions, then Saint Louis University requires that a health care provider complete a tuberculosis risk assessment within 6 months prior to the start of class. Results of a tuberculin skin test (PPD) or IGRA blood test such as Quantiferon gold or a T-spot must be provided, unless a previous positive test has been documented. A chest x-ray performed within six months prior to the first day of class is required for a positive PPD or IGRA. A written medical interpretation of the x-ray (in English) must be included.

NOTE: Testing is recommended (but not mandated) for individuals in the following groups:

- HIV positive
- Immunosuppressive disorders from illness or medication (e.g. organ transplants, prednisone)
- History of IV drug abuse or alcoholism
- Students with chronic medical conditions (e.g. diabetes, cancer, kidney disease, malabsorption disorders, etc)

TB (Tuberculin) Skin Test - Date Administered: _______ Date Read: _______ Result: _____ mm.

-OR- equivalent blood test result: __________________

Chest X-ray required if TB test is positive: Date: _______ Result: ☐ NORMAL ☐ ABNORMAL

(Attach written medical interpretation of Chest X-ray in English).

Dates of treatment: ___________________________________________________________

Physician/ Clinic name: ______________________________________________________

Physician/ Clinic address: ___________________________________________________

__________________________________________________________________________

Phone number: ____________________________________________ Date: ______________
