Academic coaching is a new initiative within the Student Success Center. The academic coaches provide undergraduate students the opportunity to discuss academic strengths, areas for improvement, and strategies to reach their academic potential.

With the coaching program, students can expect 4 interactive coaching sessions. The goals of the sessions include:

- Identify areas of academic strength and areas for improvement
- Identify their learning style through self-assessment tools
- Discuss the effectiveness of their study habits
- Determine the campus resources that will provide ongoing support
- Reflect on the academic experience
- Enhance self esteem and self-advocacy skills

Students should schedule an appointment through SLU Appointments in the tools section of mySLU. For any questions, please contact the Student Success Center at (314)977-3484.
