

Verbal Brilliance in Latin: First Conjugation Exercises

Practice these exercises until you can produce the meanings in either direction effortlessly and instantaneously. Recommendation: To make the best use of your time, do not just mechanically write down the list of words, but speak them aloud and try to think of a visual representation of the meaning as you write. Test yourself by covering the other columns or by folding the paper so that only a single column is showing as you try to understand each item in the other language. The following verbs will be used in the First Conjugation exercises:

to love	amô	amâre	amâvî	amâtus
