

Voting Privileges of NTT/Lecturer Appointees

Annually renewable NTT/Lecturer appointees have full voting privileges in the making of departmental policy and in departmental decisions. Such appointees do not vote on matters relating to tenure or the tenure and/or promotion of TT faculty.

Non-renewable NTT/Lecturer appointees are expected to use their good judgment to abstain in voting on departmental policy and decisions the implications of which extend beyond their appointment at SLU.

Should any doubt arise about whether a renewable or non-renewable NTT/Lecturer should vote or not on a particular matter, the individual should consult with the Chair or vice-versa. The final decision rests with the Chair.
