

## Care Management Data Analyst

Johns Hopkins HealthCare (JHHC), the managed care division of Johns Hopkins Medicine, provides claims administration and service initiatives through three main health care plans serving more than 150,000 members. We are currently seeking an experienced individual for an open **Care Management Data Analyst** position.

As the **Care Management Data Analyst**, you will:

- Provide reports and data sets to care management directors and program managers through data acquisition, programming and analysis of care management data
- Interpret complex data from multiple data sources and develop findings and recommendations
- Communicate analytical results to internal and external customers
- Design program evaluation strategies
- Provide input into developing recommendations and quality improvement strategies for programs and interventions.

Successful candidates will have:

- Strong analytical ability to resolve complex problems, gather and interpret data from different sources, and manage multiple projects.
- Experience with SAS or other statistical package experience
- Significant experience with data manipulation packages and techniques
- SQL querying skills a plus
- Excellent oral and written communication skills

### Requirements:

- Master's degree or equivalent in Business, Economics, Health Economics, Health Care Administration, Statistics, or a closely related field
- 3-5 years of experience with proven skills in research design, analysis, project management
- Biostatistics, and predictive modeling, as well as proficiency with various software programs.
- Knowledge of managed care operations, medical coding systems, i.e. ICD-9, CPT, HCPCS, data extraction and manipulation, information systems, population-based studies, relational databases

**JHHC** offers a comprehensive benefits and compensation package, including employee tuition assistance for up to 18-24 credits per year, based on level of study. We also offer up to more than \$15,000 in undergraduate tuition assistance for your dependent child.

We are conveniently located in Glen Burnie, just minutes off the Baltimore Beltway, near I-97 and Route 2.
