The title of your thesis/project/dissertation is limited to 55 characters on the spine of the bound copies; therefore, a shortened version of your title may be necessary. The binding character count includes the abbreviation for your degree, the year of your degree, and your last name. To determine the number of characters allowed for your **shortened title**, subtract the number of characters of your last name from the following number:

Master of Arts (Research)	49
Master of Science (Research)	49
Master of Science in Nursing (Research)	45
Master of Science in Dentistry	43
Doctor of Education	48
Doctor of Philosophy	48

This number is the maximum amount of characters that you may have in the title of your bound thesis/project/dissertation. Include in the character count quotation marks and apostrophes but not commas, semi-colons, periods or spaces. If you have any questions, please contact the Master's or Doctoral Candidacy Advisor.

Please enter the shortened title below.
