

**Guillermo Albaladejo**  
**'04 Aerospace Engineering**

Guillermo earned a BS in Aerospace Engineering from the St. Louis Campus in 2004 and went on to pursue an MSc in Space Mission Analysis and Design at Glasgow University, and a certificate in project management from Hong Kong University. He was then hired by INTA to carry out mission analysis in earth observation and interplanetary projects. He also taught courses at SLU-Madrid, passing on his excitement for engineering in Mechanics of Solids.

After rising to become the Space Systems Engineering Manager at INTA, Guillermo was ready for a new challenge and moved to Indianapolis, USA, to work for Bastian Solutions as the General Manager for Latin America, developing new businesses in emerging markets and opening offices in Brazil and Mexico. He was then promoted to International Business Director and has recently opened Bastian's new European division in London and Madrid.

Guillermo is an active member of the SLU extended community and recently hired two graduates to work at the Bastian Solutions office in Madrid. He embodies the values of his Jesuit education through his pragmatic adaptability, relentless hard work and inspiring creativity in the face of challenge. Guillermo enjoys spending his free time with his wife and two young children.
