Getting Started  (6 credits)
These courses should be taken early in the major. They are best taken prior to the completion of the sophomore year.

___  PSY 1010  General Psychology (3)

___  PSY 3930  Disciplines & Practices in Psychology (3)
Should be taken before PSY 3060.

Building Research Intensive Knowledge & Skills (12 credits)
Psychologists are fundamentally scientists. This 3-course sequence builds the research-related knowledge and skills that are essential to students planning academic, research, and applied careers as psychological scientists. All of the courses here include designated lab sections.

___  PSY 2050  Foundations of Research Methods & Statistics (4)
Offered fall and spring semesters. Best taken before junior year. B- or better grade is required.

___  PSY 3060  Applications of Research Methods & Statistics (4)
Offered fall semester only. Best taken during junior year.

___  PSY 4010  Advanced Statistics & Research Methods (4)
Offered spring semester only. Pre-requisite: PSY 3060. PSY 3060 and PSY 4010 are a year-long sequence. PSY 4010 must be completed in the spring semester following PSY 3060 in the fall semester.

Meeting Your Area Requirements (12 credits)
Area requirements ensure students learn about the broad areas of psychology. Courses at the 3000 level provide general overviews of topics whereas 4000 level courses are more in-depth topical seminars and/or provide professional skill development. Special topics courses that typically vary semester to semester include PSY 4710, 4720, 4730, 4750.

At least one course from each topical area must be completed.

___  Cognitive Neuroscience:  PSY 3100-3190;
                      PSY 4100-4190; and 4710 topical seminars
• Attendance at Mentoring Matters in Psychology (PSY 1930 and PSY 2930) is required for all Psychology Majors who are freshman and sophomores. This 0-credit “course” meets one time in February. Learn more about your courses, the faculty, careers in psychology, and ways to make the most of your major while you are in college.

• All psychology majors are required to meet with their faculty mentor each semester. A formal mentoring period begins directly after fall break and spring break, when faculty mentors schedule extra time to meet with mentees. Faculty are also available to meet throughout each semester during their office hours.

• Transfer and Study Abroad credit approvals and questions should be directed to the Director of the Undergraduate Studies Program (Dr. Kuebli, kueblje@slu.edu).

• For more information, write us at psychug@slu.edu or call 314-977-2285.

___ Developmental Psychology: PSY 3200-3290; PSY 4200-4290; and 4720 topical seminars

___ Social/Personality: PSY 3300-3390; PSY 4300-4390; and 4740 topical seminars

___ Applied Psychology: PSY 3400-3490; PSY 4400-4490; and 4730 topical seminars

Psychology Electives (6 credits)

Students must complete additional credit hours in 3000 and 4000 level courses in psychology to order to complete the 36 credit requirement for the B.S. Major in Psychology. Electives can include capstones (i.e., PSY 4870, PSY 4880, PSY 4900) or PSY 4790 or PSY 4800 which all enhance skill-related readiness for graduate school in psychology. However, at least one course must be a non-capstone 4000 level course.

| Elective 1 | _______________(   ) |
| Elective 2 | _______________(   ) |
| Elective 3 | _______________(   ) |

Mentoring Matters and Senior Residency 0-credit Requirements

___ PSY 1950  Mentoring Matters (first-year majors)

___ PSY 2950  Mentoring Matters (sophomore majors)

___ PSY 4950  Senior Residency

Enrollment in PSY 4950 during your final semester is required for graduation. Enrollment notifies the Registrar of the student's intention to graduate that semester. No actual class attendance is required; however satisfaction of PSY 4950 includes completion of Graduating Psychology Majors Survey and other assessments as announced.
