College for Public Health & Social Justice
http://publichealth.slu.edu

Collins Airhihenbuwa, Ph.D., M.P.H., Dean

In 2013, the College for Public Health & Social Justice (CPHSJ) was established, unifying the School of Public Health, the School of Social Work, and the Criminology & Criminal Justice program. The social work program was established in 1930 and was first accredited in 1933. It became an autonomous School of Social Service in 1964. The School of Public Health was established in 1991 and undergraduate degree programs in public health and health management date back to 2007.

The College is committed to a strong Jesuit tradition of caring and advocating for the underserved and marginalized. Each major requires a minimum of 120 credits for graduation. Service learning, practicum, immersion trips, and the opportunity to study on the SLU Madrid Campus are additional features of the undergraduate program.

Mission
Based on our commitment of service to others, we improve health and well-being locally, nationally and internationally through unique interdisciplinary approaches that inspire students, generate knowledge and engage individuals and communities.

Accreditation
The CPHSJ is fully accredited by the Council on Education for Public Health (CEPH). The Bachelor of Science in Social Work (BSSW) degree is fully accredited by the Council on Social Work Education (CSWE).

Undergraduate Degrees Offered
The CPHSJ offers both undergraduate and graduate degrees. Bachelor of Arts (BA) and Bachelor of Science (BS) degrees are offered in one of six majors.

Biostatistics (BSBST)

Lauren D. Arnold, Ph.D., M.P.H., Director

The B.S. in Biostatistics requires a minimum of 120 credits for graduation and draws upon expertise of faculty within the Department of Biostatistics, as well as other departments, within the College. The degree provides a solid foundation in biostatistics and computational skills. The curriculum is designed to accommodate the needs of pre-professional students (i.e., pre-med), honors students, and the preference of some students to pursue second majors and/or minor(s).

GPA Requirements
1) Cumulative GPA of at least 2.5.
2) Minimum grade of “C” in all 1000- to 4000-level B.S. in Biostatistics Major Courses.
3) Minimum grade of “C-” in all core courses.
4) Minimum grade of “D” in all remaining general elective courses counting toward the minimum 120 credits required for graduation.

Required Core Courses
A total of 62 credits are required for completion of the core curriculum. Some core requirements have multiple options for satisfactory completion. A more detailed explanation of core curriculum requirements can be found in the CPHSJ Undergraduate Public Health Student Handbook.

Criminology and Criminal Justice (BACCJ)

Noelle Fearn, Ph.D., Director

The BA in Criminology and Criminal Justice requires a minimum of 120 credits for graduation. The program offers coursework that provides students with a foundation for understanding the causes and correlates of crime and the systems that respond to criminal and delinquent behavior. The program’s unique focus on human justice supports students’ understanding of the humanity of all who are involved in the justice system including victims, offenders, and practitioners. Through rigorous academic coursework, students become educated consumers of information and research that can be applied to justice settings. Community-based experiential learning opportunities train students to be effective and transformative practitioners and citizens. Through an integration of scholarship and community-engaged service, students become aware of issues related to human and social justice in an increasingly diverse and globalized world. The program offers a Bachelor of Arts (BA) and a minor in Criminology and Criminal Justice.
General Elective Courses: 27 Credits
An additional 27 credits of general electives are required to achieve the minimum 120 credits for graduation.

^Students are advised to take CCJ 2150 prior to CCJ 3150 and CCJ 2000 prior to CCJ 2500.

Minor in Criminology and Criminal Justice
A minor in Criminology and Criminal Justice provides students with a foundation for understanding the core concepts and values of these disciplines as well as an introduction to a variety of criminology and criminal justice professions. A total of 18 credits are required for the completion of the Criminology and Criminal Justice Minor.

The School of Social Work’s Bachelor of Science in Social Work (BSSW) Program prepares undergraduate students for beginning professional social work practice. The BSSW degree provides generalist practice skills and is considered the first professional social work degree. BSSW students and graduates are eligible for membership in the principal professional organization, the National Association of Social Workers. In addition to preparing students for generalist social work practice, the BSSW program is designed to provide an excellent foundation for those who wish to pursue graduate education in social work or in other graduate programs.

The BSSW program is accredited by the Council on Social Work Education (CSWE). CSWE accreditation is important for at least three reasons. First, it promotes a high quality, comprehensive social work education. Second, some states, including Missouri, offer professional licensure to graduates of CSWE-accredited undergraduate programs. Third, many Master of Social Work (MSW) programs grant advanced standing (i.e. waiver of introductory social work courses) to graduates of CSWE-accredited undergraduate social work programs.

Evening BSSW Program
The Evening Program is offered in a partnership between the School of Social Work and the School for Professional Studies (SPS). Students apply and are admitted to SPS in accordance with their guidelines. Students take core courses (57 credits), elective courses (24 credits) and up to three social work courses (6 credits) through SPS. After social work courses and a minimum of 60 credits are completed, students apply to the School of Social Work as a social work major. After being accepted and completing 90 credits, the student will transfer to the School of Social Work to complete the junior and senior level social work courses to obtain their BSSW degree.

Admission to the BSSW Program
Incoming freshmen, students changing their majors, and transfer students can identify social work as their intended major.

BSSW Degree Requirements (120 credits)

Pass/No Pass Option
School of Social Work students may not take any Social Work course as Pass/No Pass. Students wishing to take non-Social Work courses as Pass/No Pass must register for this option and follow the conditions stated in the BSSW Student Handbook.

Accelerated Program
(BSSW and MSW in 5 Years)
BSSW students interested in pursuing their MSW degree at Saint Louis University have the opportunity to complete their BSSW and MSW degrees in five years. Students select a concentration in the MSW program in the Spring semester of their junior year in one of three areas: Clinical, Community and Organizations, and Applied Behavior Analysis. BSSW students who receive a grade of “B” or better in their undergraduate social work courses receive 18 credits of graduate credit known as “advanced standing” for those courses. Students who have a minimum overall GPA of 3.0 and B’s or better in their social work courses are eligible to apply to the Accelerated MSW Program Spring semester of their junior year. Upon conditional acceptance to the MSW program, students can take up to 9 graduate credits (3 courses) during their senior year. After graduating with a BSSW degree and meeting the admissions requirements of the MSW program, students can begin the MSW program during the summer or fall following their May graduation. The MSW program can be completed within two semesters (Fall and Spring) or three semesters (Summer, Fall, and Spring; or Fall, Spring, and Summer). Students considering this option need to carefully plan their schedules with their academic advisor and BSSW Program Director. There is a required orientation about the Accelerated BSSW Program during the Fall semester.

Minor in Social Work

Students considering pursuing an MSW degree will not be able to obtain Advanced Standing toward the MSW degree with a minor in social work. Only students with a Bachelor of Science in Social Work degree can obtain Advanced Standing. Please consult the Director of the BSSW Program for additional information:
