Course Description  

The purpose of this course is to offer students political and analytical insights into understanding some health policy issues in the U.S. and the developing world. It examines how power relations and values help determine choices made about how to confront health issues. Of particular interest in this course is the current health care reform in the U.S and AIDS pandemic in Africa. We shall explore the political and philosophical debates surrounding health issues.

The course is organized around the following themes.

- Theory, ideology and politics: Critical perspectives  
- Paradigmatic differences about ethical implications of health care  
- The health of individuals  
- Individuals, society, and health obligations to other societies  
- Institutions and Health Policy  
  Civil Society: Politics and Health Policy  
- Challenges/effective responses  
- In addition, there will be case studies that illustrate and probe the topics outlined above.

Course Objectives  

Upon successful completion of the course the students will

1) understand the political and philosophical underpinnings of any health policy issue  
2) be familiar with the political roles of individuals, societies, institutions, and political leaders relative to health policy  
3) be able to identify and classify the major factors affecting a major health issue  
4) to develop skills in case analysis  

Texts (Required)  

- Illingworth, Patricia and Wendy E. Parmet. 2006. Ethical Health Care, New Jersey: Pearson/Prentice Hall (Required)  
- Bernheim et. 2015. Essentials of Public Health Ethics. Burlington, MA (Required)
The required books are available for purchase at the University bookstore—Barnes & Noble, Busch Student Center. In addition, a set of supplemental readings is required. These materials can be accessed through Pius Library E-Reserve system. Password is polhealth

Course Requirements

Students are required to attend class sessions regularly and punctually. Students are required to sign the roll at each session, and a record of attendance will be maintained. This instructor allows only four unexcused and undocumented class absences. The sanction for a breach of this rule is a grade of AF (excessive absence). Students will be expected to complete assigned readings, participate in class discussions, prepare for case studies, and write a research paper. All reading assignments should be done prior to the assigned class date. There will be a mid-term examination. During class, cell phones must be turned off or to vibrate mode. If you need to respond to a call, please step outside the room.

Research Project: Due April 29. You will turn in a short research design paper (1-3 pages), which sketches your research question, your tentative answer (or hypotheses), and what kind of evidence you will collect to evaluate your hypotheses. You should also include a working bibliography of sources you will investigate. This will be due on January 28. A first draft (version) of your paper is advised (due on April 22) so that you can get intense feedback on your analysis prior to turning in your completed paper. Paper should be between 15-20 pages (undergrads) and 20-25 (grad students) excluding bibliography.

Note: No papers should be submitted electronically unless there is an agreement between student and professor.

Course Grading

The numerical equivalents of letter grades are:

- 93-100 = A
- 90-92 = A-
- 87-89 = B+
- 83-86 = B
- 80-82 = B-
- 77-79 = C+
- 73-76 = C
- 70-72 = C-
- 60-69 = D
- Below 60 = F

NOTE: Final grades will not be changed unless there is an error in computation.
COLLEGE OF ARTS & SCIENCES
POLICY ON ACADEMIC HONESTY

Your attention is hereby drawn to the College of Arts & Sciences on Academic Honesty. Copies of the full policy statement are available at the libraries. A general statement on the policy is stated:

Students are expected to be honest in their academic work. The University reserves the right to penalize any student whose academic conduct at any time is, in its judgment, detrimental to the University. Such conduct shall include cases of plagiarism, collusion, cheating, giving or receiving or offering or soliciting information in examinations, or the use of previously prepared material in examinations or quizzes. Violations should be reported to your course instructor, who will investigate and adjudicate them according to the Policy on Academic Honesty of the College of Arts & Sciences. If the charges are found to be true, the student may be liable for academic or disciplinary probation, suspension, or expulsion by the University.*

*Adapted from Student Handbook

Disability

If you are learning, sensory, or physically challenged, and feel that you need special assistance in lectures, accommodations, examinations, etc., please contact the Office of Disabilities Services during regular office hours or by appointment. Please telephone the office at 314 977-2930, or visit Room 131 in the Academic Resource Center, 3840 Lindell Blvd. Confidentiality will be observed in all inquiries. The first week of the session is the most appropriate time for these discussions. All matters pertaining to the discussion shall be held and treated in strict confidence.

Course Outline and Reading Assignments (This schedule may be interrupted by documentary films.)

Jan. 14 Course Overview

Ideas, Concepts, Theory and Ideology that Shape Health Politics and Policy:

Jan. 21 Hofrichter, Richard, “Public Health as Social Justice”
Ch. 10, pp. 267-284
Stone, Deborah, “Values in Health Policy: Understanding Fairness and Efficiency” in Morone et al Chap. 1, pp. 24-37
