Designed specifically with the objectives of the Certificate program in mind, the Reinert Center's Praxis Workshops are interactive sessions during which an expert facilitator designs a learning experience around a particular pedagogical topic creating the opportunity for participants to explore a new idea, or an established idea in a new way, and reflect on its implications for concrete interactions, approaches, and/or projects in their own specific teaching and learning situations (courses, labs, clinics, etc.) at the university level.

Note:
All SLU faculty & graduate students are welcome to attend Praxis sessions whether or not they are in the Certificate Program.
