Message from the VP of Human Resources

The Mission of Saint Louis University differentiates SLU from other employers. When our work aligns with our Mission we are truly supporting a Higher Purpose and Greater Good. However, our Mission is not fulfilled simply by the work we perform or the slogans on our website. The way we live our Mission, in our daily interactions with one another, is also essential to the fulfillment and credibility of our Mission.

In February the University community was introduced to the Cura initiative. Cura, a grassroots program developed with the input of the entire University community, is focused on fostering a culture of understanding, respect and appreciation. A key component of the program is recognizing the people in our community who do the little things each day that impact their colleagues in a positive way. We can all do this by sending those people a SLU Spark. Click here to send a colleague a SLU Spark to let them know they are appreciated and thank them for making SLU a special place to work.

This statement will be issued on or before March 31, 2016. You do not need to submit a copy of the 1095-C with your 2015 tax return but should maintain a copy for your tax records.
