Adding a Course to Your CITI account

Step 1:
Log into your account at http://www.citiprogram.org.

If you have forgotten your CITI Program username and/or password, use the “Forgot?” link or call the IRB Office (314-977-7744).
STEP 2:

Open your “Saint Louis University Courses” Main Menu option.*

Under “My Learner Tools for SLU”, click “Add a Course” to view the course options.

* You must have a CITI account that is affiliated with SLU to see this menu. If you don’t, see the instructions for connecting (affiliating) your CITI account, HERE.
**STEP 3:**
Select the course(s) you’d like to add from the menu of options.

When finished, click “Next”.

If you selected “required IRB Training” continue to step 4. If you selected another course skip steps 4 & 5.

**NOTE:** You may select multiple class options at the same time, but only the first option is mandated by the IRB Office.

---

To enable the software to present the appropriate course work for your needs, you will be asked a series of questions. Please read the questions carefully and provide the most appropriate answer.

**Do you conduct research in any of the following settings? Choose all that apply**

- [ ] Yes, I need to take **required IRB Training**. I conduct research with live human beings, human tissue samples or with data derived from human beings
- [ ] Yes, I need to take **IACUC Training**. I conduct research or teaching activities that utilizes live animal subjects or tissues derived from live animal subjects

- [ ] Yes, I want to or am required to take the **Good Clinical Practice (GCP)** course. This course is required for NIH and some sponsors, but is otherwise optional. This does not fulfill the requirement for IRB training
- [ ] Yes, I need to take the **Conflict of Interest (COI)** Course. I am involved in externally-sponsored research or I participate in external funding. The COI Course does not fulfill the requirement for IRB training

Revised April 7, 2017
IMPORTANT: The IRB does not accept the refresher course for the human subjects protection training requirement. For more information, or to find out if a previously completed training will qualify, contact the IRB Office at (314) 977-7744.

* In order to place you in the appropriate course we need to know if you have previously completed the Basic Course in the Protection of Human Research Subjects.

Choose one answer

- **NO.** I have NOT completed the Basic Course in the Protection of Human Research Subjects in the past. This is the first time using the CITI Program at this institution. I need to complete the Basic Course.

- **Yes.** I have completed the CITI Basic Course previously. It is time for me to complete the Refresher Course.

Note: Before you choose this Refresher Course make sure that this is the course that you are required to complete at this time. If you enroll in this course by mistake and complete the Refresher Course without previously completing the Basic Course, the IRB may require you to come back to the course site and complete the Basic Course. If you have questions, contact your IRB office.

**STEP 4:**

Select “NO” if you need to complete the Basic HSR course.

**NOTE:** Only select “Yes” if you are sure the IRB Office has a record (or you can provide proof) of a previously completed basic HSR course.

When finished, click “Next”.

The refresher course will not satisfy the IRB training requirement without proof of basic training.
STEP 5:
Select the course that relates to you/your research.
When finished, click “Next”.

NOTE: In order to pass the course, you must satisfactorily complete all quizzes.

* indicates a required field.

Biomedical Research: Individuals who conduct any biomedical research should select this course during registration.

Social/Behavioral Research: Individuals who conduct only social/behavioral research should select this course during registration.

External Collaborator: This course is only for non-SLU collaborators, such as community partners (not SLU faculty, staff or students), who are assisting on a SLU research project and have been instructed to take this course. Those who routinely partner on SLU research should select either the Biomedical or Social/Behavioral Research basic courses instead of this course.
