- 4. If you see a button maked "Attend", click on it to connect to the instructor station in preparation for class. You may not have an "Attend" button—this means that you are already connnected.
- 5. Controls are just like for a tape-recorder— rewind, play/pause, fast forward, and record.
- 6. If you need to adjust the volume controls, click on the volume settings icon to the right of the record button.
- 7. The "Call" button will notify the instructor that you'd like to speak with them.
