POLS4692/5692: Theories of World Politics
Fall 2019, Th 415-7pm
Professor Nori Katagiri
Office: McGannon 152
Office hours: Th 2-3pm

Course Description and Objectives
This is a survey course in the field of international relations (IR). It is designed to provide students with the background and conceptual tools necessary for understanding international politics in depth. It covers a wide range of topics with some of the most important literature, including traditional IR theories, international political economy, security studies, globalization, international institutions and non-governmental organizations, and politics in cyberspace. The overall goal of the course is for students to achieve a heightened level of understanding of some of the most important topics of world politics.

This class fulfills the College and Arts and Sciences Global Citizenship requirement and the social science requirement. For Political Science majors, it counts as an international relations course.

Required Books:

Both books have been ordered to the SLU bookstore. Ensure to buy the specified versions. In addition, there are supplementary articles and book chapters assigned for the course.

Grading
Reaction papers: 20% of final grade
Both undergraduate and graduate students will write two 1,500-2,100 word paper (roughly 5-7 pages equivalent) on readings in two of the weeks you choose between September 12 and October 17. You must submit the paper electronically by 4pm of the date of your assignment. A paper shorter or longer than the word length will be penalized by a reduction of letter grade (e.g. A -> A-). Late papers will be penalized by a reduction of letter grade (e.g. A -> A-) per day; papers submitted more than 3 days past the deadline will not be accepted and will receive the score of zero. Each paper will have 10% of the final grade.

Final paper: 50% of final grade for undergraduate students; 30% of final grade for graduate students
Undergraduate students: The final paper will be of 3,600-4,500 words (12-15 pages equivalent). A topic will be given on November 14, and the paper is due at 4pm on December 5. A paper shorter or longer than the word length will be penalized by a reduction of letter grade (e.g. A -> A-). Late papers will be penalized by a reduction of letter grade (e.g. A -> A-) per day; papers submitted more than 3 days past the deadline will not be accepted and will receive the score of zero.

Graduate Students: In addition to the final paper, you will write a 10-page research paper for 20% of the final grade. You must gain instructor approval on your topic within the first two weeks of class to get full credit, and the topic must be based on the application of IR theory we study in the course to a political event you want to
The paper is due electronically on December 5 at 4pm. A paper shorter or longer than the word length will be penalized by a reduction of letter grade (e.g. A -> A-). Late papers will be penalized by a reduction of letter grade (e.g. A -> A-) per day; papers submitted more than 3 days past the deadline will not be accepted and will receive the score of zero.

Class participation: 30% of final grade

Your attendance and active participation is vital to the success of this course. At a minimum, you should come to class on time having completed and prepared to discuss assigned readings for that class. A record of attendance is maintained, and it is your individual responsibility to sign the class roster at each session. Your absence is excused only if you provide the instructor with evidence of family and medical emergency (doctor’s note, copy of flight tickets, etc.) or university-sponsored activities within 48 hours of absence. You are responsible for all materials covered in class, whether you are physically present or not. I expect that all students will contribute to class discussion through analysis, questions, and criticisms of assigned readings. In assigning participation grades, quality of participation will take precedence over quantity of participation (hence, students who participate frequently but without giving much thought to their comments/questions are not at an advantage compared to students who offer occasional but insightful analysis and questions).

Student Success

In recognition that people learn in a variety of ways and that learning is influenced by multiple factors (e.g., prior experience, study skills, learning disability), resources to support student success are available on campus. Students who think they might benefit from these resources can find out more about course-level support (e.g., faculty member, departmental resources, etc.) by asking your course instructor and University-level support (e.g., tutoring/writing services, Disability Services) by visiting the Student Success Center (BSC 331) or by going to www.slu.edu/success.

Students who believe that, due to a disability, they could benefit from academic accommodations are encouraged to contact Disability Services at 314-977-8885 or visit the Student Success Center. Confidentiality will be observed in all inquiries. Course instructors support student accommodation requests when an approved letter from Disability Services has been received and when students discuss these accommodations with the instructor after receipt of the approved letter.
**Academic Integrity**

The University is a community of learning, whose effectiveness requires an environment of mutual trust and integrity. Academic integrity is violated by any dishonesty such as soliciting, receiving, or providing any unauthorized assistance in the completion of work submitted toward academic credit. While not all forms of academic dishonesty can be listed here, examples include copying from another student, copying from a book or class notes during a closed book exam, submitting materials authored by or revised by another person as the student’s own work, copying a passage or text directly from a published source without appropriately citing or recognizing that source, taking a test or doing an assignment or other academic work for another student, securing or supplying in advance a copy of an examination or quiz without the knowledge or consent of the instructor, sharing or receiving the questions from an on-line quiz with another student, taking an on-line quiz with the help of another student, and colluding with another student or students to engage in academic dishonesty.

All clear violations of academic integrity will be met with appropriate sanctions. In this course, academic dishonesty on an assignment will result in an automatic grade of 0 for that assignment and a report of academic dishonesty will be sent to the Academic Honesty Committee of the College of Arts and Sciences. In the case of Class B violations, the Academic Honesty Committee may impose a larger sanction including, but not limited to, assigning a failing grade in the course, disciplinary probation, suspension, and dismissal from the University.

Students should refer to the following SLU website for more information about Class A and B violations and the procedures following a report of academic dishonesty: [https://www.slu.edu/arts-and-sciences/student-resources/academic-honesty.php](https://www.slu.edu/arts-and-sciences/student-resources/academic-honesty.php).

**Social Science Core Requirement**

Student Outcomes: Students will acquire conceptual tools and methodologies to analyze and understand their social world. With these tools, they will be able to act in their world more effectively and become forces for positive change. They will gain a better understanding of human diversity. Students will be able to think and write critically about human behavior and community. They will become aware of the various methodological approaches used by social scientists.

**Global Citizenship**

This class fulfills the core Global Citizenship requirement. The Global Citizenship requirement is designed to educate students about global and transnational problems and to provide students with the tools to address issues of social justice beyond the United States. Students who complete the Global Citizenship requirement will gain a substantial subset of the following capabilities:

1. Identify sources of and strategies to address conflict, cooperation or competition in a global or regional context.

2. Investigate how people and nations confront inequality and claim a just place, whether in their own societies or in the world.
3. Identify how perceptions of “otherness” impact leaders, communities, and community-building in areas beyond the U.S. through the examination of such factors as race, ethnicity, gender, religion, economic class, age, physical and mental capability, and sexual orientation.

4. Understand the impact of their lives and choices on global and international issues.

5. Understand how their values are related to those of other people in the world.
