Course Description and Objectives
This course provides the student with the background and conceptual tools for understanding international politics. Three sections comprise the course: (1) history, concepts, and theories of international relations (IR), (2) international security and globalization, and (3) global issues in the 21st century.

In the first section, we discuss the origins, nature, and competing theories of international relations (IR). In the second section, we learn sources and types of international conflict, international political economy, institutions, transnational problems, and norms that shape and constrain the behavior of actors in global politics. Finally, we explore contemporary political issues around the world and apply IR theories and concepts to some of the most important global problems we face today, including human rights, the events on September 11, ISIS, global economic crisis, China’s rise, and the election of President Trump.

The course is organized into lectures and discussion sessions. The discussion days are designed to ensure that the student gain proper understanding of reading materials and lecture content through the exchange of thoughts. This class fulfills the College and Arts and Sciences Global Citizenship requirement and the Social Science requirement. It fulfills an International Studies requirement for International Studies majors. For Political Science majors, it counts as an International Relations course.

Learning Outcomes
1. Students will be able to evaluate the differences between major International Relations theories.
2. Students will be able to use theories and levels of analysis to describe and analyze issues in international politics.
3. Students will be able to describe and take a position on the main arguments surrounding current international issues.
4. Students will be able to describe the potential impacts of democratization throughout the world.
5. Students will be able to explain the causes and implications of the United States’ changing role in the international community.

Required Texts
*All listed readings must be read for that day’s class*

There are supplementary articles and book chapters in addition to textbook use. They are placed on e-reserve at the library. The e-reserve website is eres.slu.edu and the class password is pols1600.

**Course Requirements and Grading**

*In-class Essay: 20% of final grade*

The essay assignment will be given in class on November 16. The question will be general regarding all of the material you have learned in the course so far.

*Mid-term exam: 25% of final grade*

This exam will be given in class on October 19. It will cover lecture content and reading materials assigned through that date. A make-up exam will be given only if you provide the instructor with evidence of family and medical emergency and university-sponsored activities that cause your absence.

*Final exam: 25% of final grade*

The final exam will be comprehensive. It will be given on December 14 from 8:00 – 9:50 for the 11:00 class and from 12:00 – 1:50 for the 1:10 class in the classroom where we meet (McGannon 260 and Beracha 211). A make-up exam will be given only if you provide the instructor with evidence of family and medical emergency or university-sponsored activities that force your absence. Students taking this course for honors credit are required to write a 5 page research paper in addition to the final exam.

*Class participation: 30% of final grade (Attendance = 10%  Presentations and Participation = 20%)*

Your attendance and active participation are vital to the success of this course. I expect you to come to class on time having completed and thought about the assigned readings for that class. Each class will begin with a discussion of political events of the past few days, so you will need to use news sources to keep abreast of current events. A record of attendance will be maintained, and it is your individual responsibility to show up and sign the class roster at each session. Your absence will be excused only in case of illness, death or medical emergency in the immediate family, and University-sponsored activities and if you provide evidence (email from your doctor, electronic copy of airplane/bus tickets, or official SLU letter/email about university activities) within 3 days of each absence. Unexcused absences will result in zeroes averaged into your participation grade. You are responsible for all materials covered in class, whether you are physically present or not.

Group presentations will also make up a substantial part of the participation grade. In addition to presenting the readings, I expect that you will present additional information related to the lecture topic. This information could be from an academic article, a media source, or other similar material. To ensure that all group members are contributing to the presentations, you will each email me a grade that you would assign to your other group members.
I expect that all students will contribute to class discussions through analysis, questions, and criticisms of the assigned readings. In assigning participation grades, quality of participation will take precedence over quantity of participation (hence, students who participate frequently but without giving much thought to their comments/questions are not at an advantage compared to students who offer occasional but insightful analysis and questions).

Honors Students
In addition to the other class requirements, honors students will complete a 5-page research paper with a physical copy turned in on the day of the final exam. The research paper will be on a topic of your choice related to the course material. You must have this topic approved with me by November 12.

Final letter grades will be assigned that correspond to the following numeric scale:

- A  93-100
- A-  90-92
- B+  87-89
- B  83-86
- B-  80-82
- C+  77-79
- C  73-76
- C-  70-72
- D  60-70
- D- below 60

Classroom Courtesy
Out of respect for all of those in class, all cell phones, pagers, and any other noisemaking devices must be turned OFF during the entire class period and during exams. Laptop computers may be used in class provided they do not make noise that disturbs those around you. I reserve the right to ask you to turn off and put away your computer if it is creating a disruption.

Student Success
In recognition that people learn in a variety of ways and that learning is influenced by multiple factors (e.g., prior experience, study skills, learning disability), resources to support student success are available on campus. The Student Success Center assists students with academic related services, and is located in the Busch Student Center (Suite, 331) and the School of Nursing (Suite, 114). Students who think they might benefit from these resources can find out more about:

- Course-level support (e.g., faculty member, departmental resources, etc.) by asking your course instructor.
- University-level support (e.g., tutoring services, university writing services, disability services, academic coaching, career services, and/or facets of curriculum planning) by visiting the Student Success Center.

Disability Services/Academic Accommodations
Students with a documented disability who wish to request academic accommodations are encouraged to contact Disability Services to discuss accommodation requests and eligibility requirements.

Please contact Disability Services, located within the Student Success Center, at disability_services@slu.edu or 314-977-3484 to schedule an appointment. Confidentiality will be observed in all inquiries.
Once approved, information about academic accommodations will be shared with course instructors via email from Disability Services and viewed within Banner via the instructor's course roster.

**Academic Integrity**

Academic integrity is honest, truthful and responsible conduct in all academic endeavors. The mission of Saint Louis University is "the pursuit of truth for the greater glory of God and for the service of humanity." Accordingly, all acts of falsehood demean and compromise the corporate endeavors of teaching, research, health care, and community service through which SLU embodies its mission. The University strives to prepare students for lives of personal and professional integrity and therefore regards all breaches of academic integrity as matters of serious concern.

The governing University-level Academic Integrity Policy was adopted in Spring 2015, and can be accessed on the Provost's Office website: [https://www.slu.edu/the-office-of-the-provost/academic-affairs-policies](https://www.slu.edu/the-office-of-the-provost/academic-affairs-policies)

Additionally, each SLU college, school and center has adopted its own academic integrity policies, available on their respective websites. All SLU students are expected to know and abide by these policies, which detail definitions of violations, processes for reporting violations, sanctions, and appeals. Please direct questions about any facet of academic integrity to your faculty, the chair of the department of your academic program, or the dean/director of the college, school or center in which your program is housed.

**Title IX**

Saint Louis University and its faculty are committed to supporting our students and seeking an environment that is free of bias, discrimination and harassment. If you have encountered any form of sexual misconduct (e.g. sexual assault, sexual harassment, stalking, domestic or dating violence), we encourage you to report this to the University.

If you speak with a faculty member about an incident of misconduct, that faculty member must notify SLU's Title IX coordinator, Anna R. Kratky (DuBourg Hall, room 36; anna.kratky@slu.edu; 314-977-3886) and share the basic fact of your experience with her. The Title IX coordinator will then be available to assist you in understanding all of your options and in connecting you with all possible resources on and off campus.

If you wish to speak with a confidential source, you may contact the counselors at the University Counseling Center at 314-977-TALK. View SLU’s [sexual misconduct](#) policy.

**Social Science Core Requirement**

Student Outcomes: Students will acquire conceptual tools and methodologies to analyze and understand their social world. With these tools, they will be able to act in their world more effectively and become forces for positive change. They will gain a better understanding of
human diversity. Students will be able to think and write critically about human behavior and community. They will become aware of the various methodological approaches used by social scientists.

Global Citizenship
This class fulfills the core Global Citizenship requirement. The Global Citizenship requirement is designed to educate students about global and transnational problems and to provide students with the tools to address issues of social justice beyond the United States. Students who complete the Global Citizenship requirement will gain a substantial subset of the following capabilities:

1. Identify sources of and strategies to address conflict, cooperation or competition in a global or regional context.
2. Investigate how people and nations confront inequality and claim a just place, whether in their own societies or in the world.
3. Identify how perceptions of “otherness” impact leaders, communities, and community-building in areas beyond the U.S. through the examination of such factors as race, ethnicity, gender, religion, economic class, age, physical and mental capability, and sexual orientation.
4. Understand the impact of their lives and choices on global and international issues.
5. Understand how their values are related to those of other people in the world.
