(Note: Some professional associations and honors have been left out due only to my failure to
keep a complete record of all incidental professional associations and honors. I have
spoken to numerous professional, academic, and civic associations over the decades and
frequently they present some awards. Keeping track of all the Rotary Club, League of
Women Voters, Corn Growers Association of America, etc.-type talks and token awards
would be too demanding. I sometimes give several talks in a given week, especially during
the political seasons.)
