ATTESTATION FORM

As part of public health protocols this summer, Saint Louis University is surveying students and faculty who will be on campus for in-person classes (labs and lectures) to assess COVID-19 vaccine coverage.

Click here to complete the 3-question survey:
https://forms.gle/RhLAdMyKjZcE5QTZ9

Fully vaccinated is defined as being at least 14 days from the second dose of either the Moderna or Pfizer vaccines or 14 days from the Johnson and Johnson single-dose vaccine.

Your response ensures compliance with guidance from the City of St. Louis Department of Health for summer educational activities which may be based on the percentage of people who are fully vaccinated. The results assist the course instructor with planning for lab/classroom spaces, physical distancing and face masks.

Your participation in the survey is voluntary. Non-respondents will be classified as non-vaccinated for tabulation and planning purposes.

Individual responses are confidential and will not be shared with the instructor.

Thank you for completing the survey.
