Updating Your Expense Profile

From your Expense profile, you can update information such as your personal information, contact information, and emergency contacts. You can add your expense delegates, view the approvers for your expense reports, and add favorite attendees for your use in expense reports.

1. To access your Expense profile, from the SAP Concur home page, click Profile, and then click Profile Settings.

You will find the most common profile tasks on the Profile Options page. You can also use the menus on the left to select a setting to update.
2. Use the following sections to start updating your Expense Profile:

- **Your Information** - Review and update your personal information, contact information, and emergency contacts. Verify your Email addresses, and add or update credit cards that are available to use for purchases.

- **Expense Settings** - Add expense delegates that can create, edit, and/or submit expense reports for you. View the approvers for your expense reports, and add your bank and company card information.

- **Other Settings** - Activate E-receipts, configure system settings, change your password, and register your mobile devices.

In the following example, you will see how to add an expense delegate. An expense delegate can perform tasks on your behalf, such as creating, editing, and submitting expense reports for you.

3. Click **Expense Delegates**.

4. Click **Add**, and then specify which tasks you want the delegate to perform on your behalf.

5. When you are finished adding your delegates, click **Done**.
