Physician Assistant Program COVID-19 Applicant Impact Statement

Due to COVID-19 and the changes to institutions of higher education and the healthcare environment, the Saint Louis University Physician Assistant Program realizes that changes for the spring 2020 semester may have been imposed on applicants beyond the applicant's control. Therefore, we strongly recommend that each applicant complete the optional COVID-19 essay through CASPA. This will allow the Admissions Committee to have a more comprehensive view of each applicant during the review process for the Saint Louis University Physician Assistant Program.
