| | Maximum: \$ 8643 \$9340 Average |
| | Minimum: \$10,038 |

LIVING EXPENSES: The SLU PA Program is 27 months long. It begins in mid- to late-August and ends two⁺ years later in mid-December. It is a year-round, full-time graduate program. Students are responsible for their own transportation throughout the program, including transportation to all clinical sites. Living costs vary according to the needs of each student. Rent and other expenses in the St. Louis area can be lower than metropolitan areas in other parts of the country. Rents paid by current students range from ~\$650-1100/month.

* For physical exam/immunization/health requirements, as well as criminal background checks and drug screen beyond two required as a minimum, this is variable by student and will depend upon clinical site requirements, as well as student insurance coverage, prior immunization record and costs for titers, vaccinations, ACLS, BLS, criminal background checks and drug screens, etc.

** The program provides one white coat to each student. Additional white coats are ordered through the SLU bookstore at ~\$35-\$45 each.

† Not all students must pay this exact cost. However, all students are required to be covered by health insurance and to provide documentation of coverage.

†† Students are assigned to 2-3 out-of-town clinical rotations and these will have associated housing costs; this is variable based on the type of housing, availability of alternate out-of-town housing, location of clinical sites, etc.
