What is Accident Insurance?

Accident Insurance pays you benefits for specific injuries and events resulting from a covered accident that occurs on or after your coverage effective date. The benefit amount depends on the type of injury and care received. You have the option to elect Accident Insurance to meet your needs. Accident Insurance is a limited benefit policy. It is not health insurance and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

Other features of Accident Insurance include:

- **Guaranteed issue:** No medical questions or tests are required for coverage.
- **Flexible:** You can use the benefit payments for any purpose you like.
- **Payroll deductions:** Premiums are paid through convenient payroll deductions.
- **Portable:** If you leave your current employer or retire, you can take your coverage with you.

How can Accident Insurance help?

Below are a few examples of how your Accident Insurance benefits could be used:

- Medical expenses, such as deductibles and copays
- Home healthcare costs
- Lost income due to lost time at work
- Everyday expenses like utilities and groceries

Who is eligible for Accident Insurance?

- **You**—all active employees working 30+ hours per week.
- **Your spouse** — under age 70. Coverage is available only if employee coverage is elected.
- **Your children** — to age 26. Coverage is available only if employee coverage is elected.

When is my coverage effective?

The effective date of coverage is the date you are eligible to begin filing claims. The condition or illness must occur on or after the coverage effective date.
