

Jesuit College Catalogs in the Rare Book Collection at Saint Louis University

DESCRIPTION

This is a collection of printed college catalogs published annually and bound together chronologically, typically listing their institution's officers, students, courses, and programs for that academic year, and sometimes including engraved illustrations of the institution. The collection includes catalogs of 51 Jesuit colleges and high schools between the dates 1853-1914, although no institution's holdings are complete for that entire date range. Although we are listing academic year spans (e.g. 1853/54) to represent our holdings, the actual publication of the catalogs always took place in the latter year (i.e. 1854). Catalogs from later years were often bound together into more than one volume. Some errors and exceptions in the binding chronology are noted along with the contents; please check your institution for exceptions when you request a year.
