## I. Introduction

Each academic year, Saint Louis University's Student Government Association (SGA) Finance Committee oversees the allocation of the Student Activity Fee (SAF) to numerous unique undergraduate Chartered Student Organizations (CSOs) and Developing Students Organizations (DSOs) on SLU's campus. As a portion of their tuition and fees, SLU undergraduate students pay \$65 per semester into the SAF. SLU graduate students pay \$30 per semester, with 15% (\$4.50/graduate student) going toward the general SAF. CSO allocations are recommended by the Finance Committee and approved by the SGA Senate. DSO allocations are set at \$200 for purposes of recruitment and growth in preparation for becoming a CSO. Given that every student at SLU contributes to the SAF, **all** students should benefit from Annual Funding.

The Senate oversees the Student Activity Fee in an effort to promote campus involvement and better Saint Louis University's student body. As such, principles central to SLU's dedication to being "for and with others" provide the Finance Committee direction in the funding process:

1. **Betterment:** How is the Student Activity Fee used to improve the quality of the SLU student experience and allow an increasingly enjoyable and holistic education?
2. **Reach:** How can the Student Activity Fee—a limited resource—be distributed among student groups efficiently and effectively in order to impact the greatest number of students?
3. **Equity:** How can the Student Activity Fee be distributed in a way that respects and empowers every Chartered Student Organization and Developing Student Organization in good standing with the Student Government Association while acknowledging the needs and goals of organizations which serve underrepresented students on campus?

With these principles in mind, the Finance Committee has authored the Annual Funding Directives and offers funding recommendations to the Senate. These recommendations prioritize funding requests that abide by these principles, directly impacting the day-to-day life of SLU's students. The Finance Committee does not prioritize personal advancement nor the improvement of the perceived standing of any University department nor activity as a justifiable intention when allocating funding. Additionally, funding should never be seen as an entitlement; funding can be given and removed based on (1) the Student Organization's overall compliance with the SGA Annual Funding requirements, (2) alignment with the University's spending policies, and (3) their contribution to the Student Organization's mission and the greater SLU community. It is the responsibility of SGA to provide for student groups, and these resources should be allocated as effectively as possible so that student groups may perform to the best of their capabilities.

## II. Definitions

**Chartered Student Organization (CSO):** An attribution assigned to organizations affiliated with SLU's Student Government Association (SGA). These organizations participate in SGA's Annual Funding process, receiving money via the Student Activity Fee, and thus are subject to SGA's Annual Funding requirements.

**Competitive Build CSOs:** Any group that must design and build a physical object that will be entered into a competition/tournament to be judged.

**Competitive CSOs:** Any CSO with a mission to compete in regional and national competitions.

**Competition/Tournament:** An inter-collegiate opportunity for groups to compete against others of a similar nature.

**Conference:** A formal event in which schools, organizations, and/or independent parties meet to discuss a particular topic. Fundable conferences provide a unique experience and information to an attending party that brings something back to benefit the leadership operations of the attending CSO as well as the Saint Louis University student experience as a whole. Fundable conferences serve as an affinity space and support system for the attendees.

- Leadership conferences are defined as conferences that serve to further the operations of a CSO and its influence on Saint Louis University's campus.

**Co-Sponsorships:** When multiple CSOs collaborate and financially co-sponsor an event.

- Collaborations with Developing Student Organizations should not be listed under Co-Sponsorships as they are not provided with event funding.

**Developing Student Organization (DSO):** An attribution assigned by the Committee for Student Organizations to groups in the process of becoming a Chartered Student Organization (CSO).

**Diversity Leadership Cabinet (DLC) CSO:** Any CSO which represents a population that is currently and/or has been historically oppressed, underrepresented, and/or marginalized. These CSOs work together with SGA to achieve SGA's and the CSO's missions as they relate to diversity, equity, and inclusion.

**Durable Items:** Items that can last for more than one fiscal year and will stay within the organization.

**Financial Repercussions:** Repercussions that may take place for not following the requirements for CSO or DSO funding per the funding directives, information presented at Leaders of the Pack by the Vice President of Finance, and information presented at the Annual Funding Kickoff.

- Repercussions may include, but are not limited to, reductions in funding, freezing of funds, or restrictions on use of the Student Involvement Center P-Cards.

**Fiscal Year:** In accordance with the University's operating schedule, the fiscal year indicates the opening and closing of an organization's financial operations and records.

- Fiscal Year 2026 refers to July 1, 2025 - June 30, 2026.

**Fundraiser:** Any event/item funded partially or completely through the Student Activity Fee that is charging students with the intent to make a profit for charitable causes.

- Only **Primarily Charitable CSOs** may receive funding for fundraisers.

**Good Standing:** A designation given to any CSO that successfully completes all SGA Annual Funding requirements as outlined in the subsection Eligibility and Requirements for Funding.

**Internal Budget:** A CSO's method of internal tracking all incurred expenses throughout the course of the Fiscal Year. This includes a record of funds that were collected through dues and fundraisers.

**Internal Event:** Any event or trip that is open to group members only, not the entire student body.

- Competitions and tournaments shall not be considered forms of Internal Events for the purpose of Student Activity Fee funding.
- Internal event designations are at the discretion of the Finance Committee based on the description of the event given by the CSO at the time of the request.

**Non-Durable Items:** Any item that cannot be reused for multiple events. m

- Non-Durable items can be funded at the discretion of the Finance Committee if they are deemed integral to the success of a CSO.

**Primarily Charitable CSOs:** Any CSO with a mission dedicated to fundraising for a charitable cause or organization that is external to the SLU community.

**Procurement Cards (P-Cards):** A University-sponsored credit card that provides an efficient process for Student Organizations to buy goods, services, equipment, etc. using their approved SAF allocation, Wellness Funds, or internal funds from membership dues, fundraisers, or donations to the CSO. Use of a P-Card is contingent on a Student Organization's compliance with the University's P-Card regulations and the P-Card guidelines set by the Student Involvement Center staff.

**Programming Event:** Any type of activity hosted by a CSO that is in line with its constitutional mission and purpose that is open to the entire SLU student body.

**Recruitment Funding:** Money used to encourage students to attend general, informational meetings about the group and encourage involvement. Example uses of these funds include involvement fairs, one general body meeting per semester, or a combination of the two.

**Service CSOs:** Any CSO with their primary mission dedicated to volunteer work and service of the greater Saint Louis community.

**Undue Burden:** This designation is given by the Finance Committee to any item or event that is deemed to be an unjustifiable expense of the Student Activity Fee. This includes events or items that the Student Activity Fee cannot afford.

**Zero-Dollar Allocation (ZDA):** If a CSO is unable to specify a line item of a funding request at the time of annual funding due to factors outside of its control, then they may request a "Zero-Dollar Allocation" in the "Funding Requested" column of the line item.

- An explanation must be provided as to the unforeseeable nature of the line item.

- (i.e. a Model United Nations Conference in which registration, travel, and lodging costs fluctuate year-to-year and cannot be determined at the time of Annual Funding budget submission. Or, a CSO has interest in attending an event where the location has yet to be determined; or a competition in which the organization needs to qualify to be eligible to attend).
- If a Zero-Dollar allocation is approved, the CSO is able to apply for Spot Funding when they are able to specify the cost of that line item.
- Spot Funding cannot be completely guaranteed to a CSO by the Finance Committee alone based on the approval of a ZDA as the decision to allocate spot funding is ultimately up to the SGA Senate.
