# Applying for Accommodations

## A Guide for Graduate Students

### Implementing Reasonable Accommodations in a Graduate Program

Reasonable accommodations in the graduate setting are both important and appropriate, as assignments tend to be further “out of the norm” vs. undergraduate course material and work responsibilities. Interactive conversations with faculty are essential, and the Center for Accessibility and Disability Resources is a great resource for students and faculty when discussing implementation of accommodations.

### How to Register for Academic or Assistantship Accommodations

Students who wish to apply for accommodations will need to submit an application, as well as diagnostic information, and will need to schedule an appointment with CADR via EAB Navigate.

The Academic Accommodations Request Form can be accessed by scanning the QR code on this document or by contacting the Center for Accessibility and Disability Resources (CADR). If you need help completing the form, please contact CADR.

### Steps to Complete the Form

- Follow the QR code or contact CADR for help accessing the accommodations portal.
- Enter your name and email address on the first page. Information for CADR is automatically entered on this page.
- Select “begin signing” at the bottom of the page.
- On the next page, select “continue” to finish the request form or “finish later” if you need to gather additional information.
- Once you are ready to continue, finish filling out the required sections of the form, paying special attention to Section B, indicating specific accommodation needs, diagnoses, etc.
- Once you have finished all sections of the form, select “finish” at the bottom of the page to submit your information.

#### Section B.

Please indicate your disability(ies) or diagnosis(es):

Please provide a list of accommodations requested below (if unsure, please put N/A):
