

SAINT LOUIS UNIVERSITY
MADRID

ECE-1002-M01: Introduction to Electrical and Computer Engineering II
Spring 2018

Class Days and Time: R, 18:30-20:20

Classroom: PAH-20, PAH-21

Prerequisite(s): Introduction to Electrical and Computer Engineering I (ECE-1001)

Credit(s): 1

Instructor: Usama Abou-Kheder

Instructor's Email: usama.kheder@slu.edu

Instructor's Campus Phone: 91 554 58 58, ext. 255. **Mobile Phone:** 600 742 339

Office: Sciences and Engineering Office (PAH) or Physics Lab (PAH-21)

Office Hours: W, 17:30-20:30

Course Description: Ohm's law, current and resistance measurement, Kirchhoff's law, series and parallel circuits, principles of operation and use of the oscilloscope, use of function generators, current-voltage relationships for AC circuits, logic gates, Computer Aided Design (CAD), effective technical written and oral communication, circuit simulation tools.

Course Goals and Student Learning Outcomes: At the end of the course, students will be able to:

- Use basic laboratory instrumentation such as multimeters, oscilloscopes and signal generators to measure and analyze electrical circuits
- Write a technical research project as well as make a Power Point presentation and present it in public
- Use CAD software tools such as Pro-E to draw basic objects
- Simulate simple electrical circuits using software simulators such as Matlab or P-Spice

Saint Louis University - Madrid Campus is committed to excellent and innovative educational practices. In order to maintain quality academic offerings and to conform to relevant accreditation requirements, the Campus regularly assesses its teaching, services, and programs for evidence of student learning outcomes achievement. For this purpose anonymized representative examples of student work from all courses and programs is kept on file, such as assignments, papers, exams, portfolios, and results from student surveys, focus groups, and reflective exercises. *Thus, copies of student work for this course, including written assignments, in-class exercises, and exams may be kept on file for institutional research, assessment and accreditation purposes.* If students prefer that Saint Louis University - Madrid Campus does not keep their work on file, they need to communicate their decision in writing to the professor.

Required Texts and Materials:

- ECE-1002 Lab Manual

Reference:

- Foundations of Electrical Engineering, by J.R. Cogdell. Prentice Hall
- Electrical Engineering Uncovered, by D. White & R. Doering
- The Craft of Scientific Writing, by Michael Alley

Attendance Policy: Attendance to all lab sessions is mandatory. If an absence is justified, the student and the instructor can appoint a day to make up the missing lab session.

Course Requirements and Grading Rationale/System: A short report will be written after each lab session. It will be sent by email to the instructor before the beginning of the next lab session. There will be a midterm exam and a final. The students will have to write a research paper of some topic related to the electrical and computer engineering and do a presentation. The overall grade will be obtained from the following areas:

Attendance and homework: **20%**

Lab reports: **25%**

Research Paper and Presentation: **25%**

Exams: **30%**

Grading scale:

A 90-100%

A- 87-89%

B+ 84-86%

B 80-83%

B- 77-79%

C+ 74-76%

C 70-73%

C- 66-69%

D 60-65%

F < 60%

E-mail: Campus and course announcements will often be handled by e-mail. Students should check their "@slu.edu" e-mail regularly.

University Statement on Academic Integrity: Academic integrity is honest, truthful and responsible conduct in all academic endeavors. The mission of Saint Louis University is "the pursuit of truth for the greater glory of God and for the service of humanity." Accordingly, all acts of falsehood demean and compromise the corporate endeavors of teaching, research, health care and community service via which SLU embodies its mission. The University strives to prepare students for lives of personal and professional integrity, and therefore regards all breaches of academic integrity as matters of serious concern.

The governing University-level Academic Integrity Policy can be accessed on the Provost's Office [website](#). Additionally, SLU-Madrid has posted its academic integrity policy online: <http://www.slu.edu/madrid/academics>. As a member of the University community, you are expected to know and abide by these policies, which detail definitions of violations, processes for reporting violations, sanctions and appeals.

The professor will review these matters during the first weeks of the term. Please direct questions about any facet of academic integrity to your faculty, the chair of the department of your academic program, or the Academic Dean of the Madrid Campus.

University Title IX Statement: Saint Louis University and its faculty are committed to supporting our students and seeking an environment that is free of bias, discrimination, and harassment. If you have encountered any form of sexual misconduct (e.g. sexual assault, sexual harassment, stalking, domestic or dating violence), we encourage you to report this to the University. If you speak with a faculty member about an incident of misconduct, that faculty member must notify SLU's Title IX deputy coordinator, Marta Maruri, whose office is located on the ground floor of Padre Rubio Hall, Avenida del Valle, 28 (mmaruri@slu.edu; 915-54-5858, ext. 213) and share the basic fact of your experience with her. The Title IX deputy coordinator will then be available to assist you in understanding all of your options and in connecting you with all possible resources on and off campus.

If you wish to speak with a confidential source, you may contact the counselors at the SLU-Madrid's Counseling Services on the third floor of San Ignacio Hall (counselingcenter-madrid@slu.edu; 915-54-5858, ext. 230) or Sinews Multiplettherapy Institute, the off-campus provider of counseling services for SLU-Madrid (www.sinews.es; 917-00-

1979). To view SLU-Madrid's sexual misconduct policy and for resources, please visit the following web address: <http://www.slu.edu/Documents/Madrid/campus-life/SLUMadridSexualMisconductPolicy.pdf>.

Students with Special Needs: In recognition that people learn in a variety of ways and that learning is influenced by multiple factors (e.g., prior experience, study skills, learning disability), resources to support student success are available on campus. Students who think they might benefit from these resources can find out more about:

- Course-level support (e.g., faculty member, departmental resources, etc.) by asking your course instructor.
- University-level support (e.g., tutoring/writing services, Disability Services) by visiting the Academic Dean's Office (San Ignacio Hall) or by going to <https://www.slu.edu/madrid/academics/student-resources>.

Students with a documented disability who wish to request academic accommodations must contact Disability Services to discuss accommodation requests and eligibility requirements. Once successfully registered, the student also must notify the course instructor that they wish to access accommodations in the course. Please contact Disability Services at disabilityservices-madrid@slu.edu or +915 54 58 58, ext. 230 for an appointment. Confidentiality will be observed in all inquiries. Once approved, information about the student's eligibility for academic accommodations will be shared with course instructors via email from Disability Services. For more information about academic accommodations, see "Student Resources" on the SLU-Madrid webpage.

Note: Students who do not have a documented disability but who think they may have one are encouraged to contact Disability Services.

(IF APPLICABLE): Mandatory Trips/Activities: Students enrolled in this class must participate and make payment for all mandatory trips/activities. The prices posted on the web are approximate; the final price will be based on the number of students enrolled on the last day of the Add/Drop period. All students, including those who withdraw from the class after this date, are required to pay these fees, which are non-refundable, unless the trip is cancelled due to low enrollment. Please review SLU-Madrid's trip policies, available on-line.

Course Outline:

Week	Topic
1	Current and resistance measurements
2	Circuit analysis using Kirchhoff's current law
3	Reducible networks
4	Oscilloscope
5	AC circuits
6	Logic gates
7, 8 & 9	Effective technical written and oral communication
10, 11 & 12	Computer Aided Design (CAD)
13, 14 & 15	Circuit simulation tools
