Studying an English major at Saint Louis University – Madrid Campus means enjoying English literature and the English language. It means reading and learning to analyze distinguished writers, such as William Shakespeare, Jane Austen, Charles Dickens, Robert Louis Stevenson, Denise Levertov, Margaret Atwood or George R.R. Martin. It is also a chance to engage with the increasingly written world around us in a very sophisticated way, to analyze the world beyond what we read on the web, or are told in the press, and to shape the world with finely-tuned written and aural communication and language skills.

To complete the major, students are required to take courses in the following areas:

- Form and Genre
- History and Context
- Rhetoric and Argumentation

In keeping with the Jesuit tradition of promoting the development of the whole person, English major requirements include the Arts & Sciences Core Curriculum. The Core provides a framework for acquiring a broad foundation of knowledge in the humanities, natural sciences and social sciences.
WHY CHOOSE THIS PROGRAM?

Words matter. They give us the power to expand the human imagination, to share ideas with others, and to control meaning.

Our English Department is a close-knit community of talented and expert professors, leaders in literary fields that range from text and narrative, to Shakespearean and Victorian literature, to contemporary American poetry and playwriting. Our curriculum covers notable authors as well as literature from the classics to the most innovative contemporary media. But our vibrant campus is also alive with readings, performances and poetry slams, and conferences that resonate with our love of literature.

Because words matter, understanding the how and why will give you the ability to use them to the greatest effect in whatever you choose to do next in your career. An English major (or minor) develops the strong analytic, research, and writing skills crucial to success in most professional fields (e.g., law, medicine, journalism), as well as precise, sensitive communication—an asset in any career.
