HONORS CONTRACT FOR NON-HONORS COURSES

OVERVIEW
Honors students can earn Honors credit by contracting an upper-level course in their major or minor (or in some cases a related field) and completing additional assignments.

HONORS CONTRACT PROCESS
Students are encouraged to identify the course they wish to contract prior to the start of the semester, discuss the contract with the instructor, and complete the required paperwork. Students should make every effort to arrange the contract with the faculty member as soon as they can after they register for the course, but no later than the first week of classes. Contracts must be submitted to the Honors Program no later than the second Friday after the beginning of classes for the semester.

HONORS CONTRACT REQUIREMENTS (for student and instructor)
1. The student must complete additional work beyond the general requirements for the course.
2. The student and faculty member together should set the focus and requirements for the Honors work.
3. All Honors contracts are subject to the approval of the Honors Program coordinator.
4. The student must receive a “B” or better for the course.
5. The Honors work should be graded pass/no pass or satisfactory/unsatisfactory (not the course).
6. The student must submit a copy of completed work to the Honors Program to be included in the student’s file.
7. The instructor will create a special honors version of the course syllabus by adding “Honors” to the title and an additional paragraph in the body of the document (“Requirements for Honors students” or similar), where the additional work that the student will complete in order to earn honors credit will be briefly described. The syllabus should be submitted to the Registrar (registrar-madrid@slu.edu), who will update the course on the student’s registration by creating the appropriate honors section.
8. The Honors Program coordinator may contact the instructor to verify successful completion of the work.

SUGGESTED ASSIGNMENTS (to be completed in addition to other course assignments)
