

PRAYER AGAINST RACISM

By Patrick Saint-Jean, SJ

Lord,

Racism is a social sin that has taken root in the garden of our hearts. We need you to convert us Lord, and purify our hearts, so that we can become agents of care, who walk by faith in justice, hope, love, healing, and reconciliation for your greater glory.

It's time to embrace our Black brothers and sisters, instead of standing by while they are continually killed by a tree we need to uproot.

Racism is sinful and harmful to your creation. Guard our hearts against it, and move us forward to enact change.

Amen
