ABOUT US…

With 50 years’ experience, Enagás is an international standard bearer in the development, operation and maintenance of gas infrastructures. It is accredited as an independent TSO by the European Union and carries out its activities in eight countries. Enagás is Spain’s leading natural gas transmission company and Technical Manager of the Spanish gas system. It has around 12,000 Km of gas pipelines, three underground storage facilities in Serrablo (Huesca), Gaviota (Vizcaya) and Yela (Guadalajara) and four regasification plants in Barcelona, Huelva, Cartagena and Gijón. It also owns 50% of the BBG regasification plant in Bilbao and 72.5% of the Sagunto plant. In addition, Enagás holds the 100% of Gascan, a company in charge of the project to introduce natural gas into the Canary Islands. Since Enagás came to market in 2002, it has formed part of the Ibex 35 index. It currently has a free float of 95%, one of the highest on the Spanish continuous market.

INTERNATIONAL ACTIVITY

Enagás is present in eight countries. In Mexico, the company holds a stake in the TLA Altamira regasification plant, is a member of the consortium that built and now operates the Morelos gas pipeline and a member of the consortium that developed the Soto La Marina compressor station, in operation now. It is also the main shareholder of Quintero LNG terminal in Chile and holds stakes in Transportadora de Gas del Perú (TgP) and Compañía Operadora de Gas del Amazonas (Coga) in Peru. 95%5%SEPIFree

FloatShareholding structure Enagás is also involved in the construction of the Trans Adriatic Pipeline (TAP), which will bring gas to Europe from the Caspian Sea linking Greece, Albania and Italy. The company is part of the consortium that has acquired 66% of the Greek gas operator Desfa as well. In addition, Enagás participates in the engineering project of a gas pipeline and a natural gas treatment plant in eastern Morocco.

CURRENT PROJECT USA

Enagás has signed an agreement with subsidiaries of Blackstone Infrastructure Partners and GIC (Singapore Sovereign Wealth Fund) to invest $590 million in an indirect 10.93% stake in Tallgrass Energy LP. Tallgrass Energy LP is a US energy infrastructure company that owns, among other assets, 11,000 km of transportation pipelines. This operation fits Enagás' strategy of investing in core business assets in stable markets with growth opportunities, identified as priorities in its Strategic Plan (Europe and Pacific Axis: Mexico, Peru, Chile, Colombia and the United States), maintaining strict investment criteria. As an industrial partner, Enagás will hold a position on the Board of Directors, contributing its experience in the operation and development of energy infrastructures. In addition, Enagás has reached an agreement to invest up to $300 million in future investments in TGE.

OPPORTUNITIES FOR NEW GRADUATES

We are looking for young Americans who have recently completed or are about to complete their studies, to join the company through a full program that allows you to learn and work in several fields of Enagás in Spain and actively participate in the different projects and investments that will take place in the future in the United States. We are looking for technical profiles (Industrial Engineering, Mechanical Engineering, Energy Engineering, Environmental Engineering …) as well as profiles related to the field of finance (Business, Economics, Finance, Business Development, International Relations…).

Don't miss the opportunity to collaborate with great professionals who are experts in the field, who will help you to develop the key competences for your professional growth.
