

Saint Louis University presents the 8th Annual Primary Care Research Symposium

Wednesday, April 17th at 12:00 PM.

Pitlyck Auditorium, Doisy Learning Resources Center

The departments of Family and Community Medicine, General Internal Medicine, General Academic Pediatrics, and the College of Public Health and Social Justice are pleased to announce that this year's symposium will feature a keynote presentation by Dr. Kurt Kroenke. Dr. Kroenke is the Director of Education and Training Programs and a Research Scientist at the Regenstrief Institute at the Indiana University School of Medicine. An internist by training, Dr. Kroenke has been the recipient of nine NIH grant awards and was a key contributor to the teams that developed and validated the PHQ-9 and GAD-7.

Schedule:

12:00-1:15 Keynote presentation (lunch served for those that RSVP)

1:15—2:30 Student, Resident, and Fellow Poster Session

2:30—4:30 Faculty Research Presentations

If you plan to attend, please RSVP at <https://goo.gl/forms/JnQZ1pfqG35Pa3qH3>
