OT JUSTICE SERIES
SLU OT Transition & Integration Services (OTTIS) Training:
• Intensive online training course that covers program development, service delivery (assessment, intervention, and documentation) and evaluation.
• Based on our work with jails and prisons using occupational justice and public health principles, trainees will also gain valuable knowledge about the criminal justice system and terminology; and integrating workplace health promotion into their services.
• Digital badge and certification to be an approved provider of the SLU OTTIS method to provide OT in jails and prisons and/or start your own program for justice-based services.

ALL PROCEEDS BENEFIT SLU OTTIS PROGRAMMING FOR CLIENT SERVICES & OT EDUCATION
WHO COULD BENEFIT FROM THE OTTIS COURSE?

- OT & OTA Educators and Fieldwork Coordinators – Teaching our future workforce about this emerging area of practice addresses community practice, population and community health, sociocultural, socioeconomic, and diversity factors and lifestyle choices. Addresses needs of those who are experiencing or are at risk for social injustice, occupational deprivation, and disparity in the receipt of services.

- Existing OT & OTA Practitioners – Seeking to expand current services or practice in a different area? For instance you may be in, school-based, mental health, home health, acute care, physical rehabilitation, skilled nursing. All of these practice areas provide services to people who have been touched by the justice system and they, need our services. All of our areas of practice may benefit from an occupational justice informed practice to promote health, participation, and wellness for all.

- Students and New OT & OTA Practitioners – Excited to launch your new career as a pioneer in justice-based practice? Join us in this innovative, service-driven area of practice to impact the lives of individuals.

- Retired OT & OTA Practitioners – Looking for an encore to your professional career? Justice-based OT is an emerging field to perform work as a second act. It can also provide the needed instruction for mentoring students and practitioners towards their goals.

- Entrepreneurs – Do you seek new opportunities for your department, program or business? This training provides the needed tools for starting up justice-based OT practice.
