| 1 | Students will demonstrate Discipline Specific Knowledge (DSK) (categories 1-3) as defined by the American Psychological Association’s Office of Accreditation.  
   - Category 1: History & Systems  
     - PSY-5100: History of Psychology  
   - Category 2: Basic Content Areas  
     - b) Biological: PSY-5130: Neuroscience or PSY-5930: Fundamentals of Neuropsychology;  
   - PSY-5100: History of Psychology  
   Category 2: Basic Content Areas  
   - b) Biological: PSY-5130: Neuroscience or PSY-5930: Fundamentals of Neuropsychology;  
   - c) Cognitive: PSY-5120: Memory, Cognition, and Emotion | Course grades. Students must earn a grade of B or better.  
   - Alumni survey  
   - EPPP score | Student performance is reviewed twice yearly (January and June) to determine students’ progress and identify areas for remediation. Students identified as struggling are brought to the attention of faculty during one of the monthly clinical faculty meetings.  
   - An annual faculty retreat is held each year (all clinical faculty) to review and inform curriculum mapping. Outcomes related to the DSKs are shared once a year with faculty teaching those courses. |

Additional Questions

1. On what schedule/cycle will faculty assess each of the above-noted program learning outcomes? (It is not recommended to try to assess every outcome every year.)

   Student performance in courses and on competency rating forms is reviewed twice yearly at our Student Development Meetings in January and June. Summaries generated from these meetings are discussed once per year at our Annual Clinical Faculty Retreat held during the 8-week summer session. The focus of this discussion is to see if there are any programmatic issues that must be addressed (e.g., if we see a pattern of student difficulties). Information from the alumni survey and EPPP scores are discussed once per year at our Annual Clinical Faculty Retreat.

2. Describe how, and the extent to which, program faculty contributed to the development of this plan.

   This plan represents a subset of the information we must collect as part of our APA accreditation.

3. On what schedule/cycle will faculty review and, if needed, modify this assessment plan?

   We will meet to discuss the plan once per year at our Annual Clinical Faculty Retreat.

IMPORTANT: Please remember to submit any assessment rubrics (as noted above) along with this report.
