Program Learning Outcomes	Curriculum Mapping	Assessment Methods	Use of Assessment Data
<i>What do you expect all students who complete the program to know, or be able to do?</i>	<i>Where is the outcome learned/assessed (courses, internships, student teaching, clinical, etc.)?</i>	<i>How do students demonstrate their performance of the program learning outcomes? How does the program measure student performance? Distinguish your direct measures from indirect measures.</i>	<i>How does the program use assessment results to recognize success and "close the loop" to inform additional program improvement? How/when is this data shared, and with whom?</i>
1) Students will create oral, written and digital messages relevant to the audience, purpose and context.	Learning outcome will be assessed for seniors in upper division courses with a final presentation assignment (e.g., CMM 3000; 3200; 3300; 4420; 4350; 4600; 4700; 4720; 4960), a major writing assignment (e.g., CMM 3110; 3120; 3610; 3710; 4070; 4200; 4100; 4600; 4700; 4960), and/or a digital media assignment (e.g., CMM 3510; 3520; 3560; 3700; 4100; 4590; 4810). 1. It is **not recommended** to try and assess (in depth) all of the program learning outcomes every semester. It is best practice to plan when each outcome will be assessed and focus on 1 or 2 each semester/academic year. Describe the responsibilities, timeline, and the process for implementing this assessment plan.

The Department will assess one program learning outcome each year. To make this plan manageable, faculty will apply rubrics to specific artifacts relevant to the outcomes being measured. Using a specialized coding system, each faculty member will input the rubric scores for his or her senior students into a spreadsheet. The assessment committee will then create a report using the aggregate data.
