| Students will explain learning and curriculum theories. | 6 hours of advanced courses in Curriculum and Instruction. | Comprehensive exam  
Direct questions about learning and curriculum theories.  
Indirect questions that require the student to use learning and curriculum theories to as part of their answer. | Assessment results are summarized and examined on a semester or yearly basis—depending on the nature of the data. Programs and concentration areas discuss data in their meetings, make decisions about what the data mean, and develop action plans for improvement. These action plans are submitted and monitored on a yearly basis. |
| Students will research questions in the field of curriculum and instruction. | EDR 5400  
Introduction to qualitative research.  
EDR 5600  
General research methods for educators. | Research proposal in EDR 5400.  
Doctoral research and defense  
Final research project for Doctoral residency and Doctoral research. | Assessment results are summarized and examined on a semester or yearly basis—depending on the nature of the data. Programs and concentration areas discuss data in their meetings, make decisions about what the data mean, and develop action plans for improvement. |

1. It is **not recommended** to try and assess (in depth) all of the program learning outcomes every semester. It is best practice to plan out when each outcome will be assessed and focus on 1 or 2 each semester/academic year. Describe the responsibilities, timeline, and the process for implementing this assessment plan.

The School of Education collects and analyzes data on its graduate teacher education learning outcomes every year. The data from these assessment measures are collected from September 1-August 31. This data is summarized and uploaded into the School of Education’s data dashboard on a semester or yearly basis—depending on the nature of the data. The faculty review the data on these outcomes on a yearly basis in the fall semester.

The review and reporting process for this assessment plan is monitored by the School of Education’s assessment committee. Specifically, the Director of Graduate Teacher Education and the Director of Assessment are responsible for making sure this plan is implemented and that data-based program improvement decisions are made and used by faculty.

2. Please explain how these assessment efforts are coordinated with Madrid (courses and/or program)?

This question is not applicable to the School of Education’s core curriculum assessment plan.

3. The program assessment plan should be developed and approved by all faculty in the department. In addition, the program assessment plan should be developed to include student input and external sources (e.g., national standards, advisory boards, employers, alumni, etc.). Describe the process through which your academic unit created this assessment plan. Include the following:

   a. **Timeline regarding when or how often this plan will be reviewed and revised. (This could be aligned with program review.)**

   This assessment plan is reviewed in accordance with the School of Education’s accreditation and program review cycle. The School of Education’s assessment committee is responsible for reviewing and making changes to this assessment plan. The Director of Assessment is responsible for making sure the assessment committee monitors and reviews this plan at the appropriate time.

   b. **How students were included in the process and/or how student input was gathered and incorporated into the assessment plan.**

   The Director of Graduate Teacher Education consults and facilitates discussions with students about the programs in graduate teacher education and manages program changes as necessary.

   c. **What external sources were consulted in the development of this assessment plan?**
The following external sources were consulted when making this plan:

- Saint Louis University’s assessment planning materials and learning outcomes.

d. **Assessment of the manageability of the plan in relation to departmental resources and personnel.**

The School of Education has the departmental resources and personnel to manage this plan. We have a full-time Director of Assessment as well as an assessment governing committee.
