4.0 STUDENT LEARNING OUTCOMES AND ASSESSMENT PLAN

Saint Louis University School for Professional Studies Program Assessment Model

The School for Professional Studies has adopted the model described in this document for programmatic assessment. Starting with new programs, the model will be phased in for all SPS programs.

The model is designed to illustrate alignment among School, program and course student learning outcomes as well as an ongoing, cyclical assessment process.

Program Assessment Plan

Program: Medical Cannabis Science and Therapeutic Management

Additional Questions

1. On what schedule/cycle will faculty assess each of the above-noted program learning outcomes? (It is not recommended to try to assess every outcome every year.)

Program Assessment Schedule

The following schedule provides an annual timeline for assessing the program’s student learning outcomes. The assessment schedule will be reviewed annually and modified to address emerging evidence needs for assessment of a particular SLO.

	SLO ₁	SLO ₂	SLO ₃
AY 2021-22	CSO5000 CSO5100		CSO5200 CSO5300
AY 2022-23	CSO5200	CSO5000	
AY 2023-24		CSO5000 CSO5100 CSO5200	CSO5200 CSO5300

Program Curricular Map

The curriculum map indicates where SLOs are evaluated. The map demonstrates how each course contributes to students' meeting the SLOs and help ensures student learning is designed to scaffold from initial introduction to the knowledge/skills/attitudes (KSA), to the opportunity to apply the KSAs to different situations, to evaluation of student's degree of achievement of each SLO.

2. Describe how, and the extent to which, program faculty contributed to the development of this plan.

The Program Director in cooperation with the full-time and adjunct faculty are involved in the development of the courses and their application to each program learning outcome within the plan. These faculty members are highly invested in ensuring that course projects and other associated artifacts are created in ways that allow student performance toward the learning outcomes to be distinguished and evidence towards achievement reported.

3. On what schedule/cycle will faculty review and, if needed, modify this assessment plan?

This plan will be reviewed annually to ensure it continues to meet the program's needs. If a given learning outcome indicated areas in need of focused assessment, especially as it relates to one or more courses within the program or a foundational competency, then the schedule may be altered as needed. As SPS programs continually evolve to meet changing market needs, this assessment plan is dynamic and subject to change as the program evolves and new programs are offered.
