

## Undergraduate Academic Standing Policy

Version: 1.0

Responsible University Official: Provost

Version Effective Date: August 20, 2025

### 1.0 Introduction

Placing students on Academic Concern, Academic Warning, or Extended Academic Warning provides safeguards and additional support designed to assist students in achieving their academic goals. Dismissing students from the University for Academic Reasons is done in the best interests of the dismissed students, and to preserve the academic integrity of the University for all students; it is an ethical and moral obligation of the University.

### 2.0 Scope

The Office of the University Registrar is charged by the Provost to maintain student academic standing records.

The Office of the Provost is responsible for notifying students who are not in good standing and for providing opportunities for recovery, except those students who are degree-seeking on the Madrid campus. The Office of the Rector of the Madrid campus is responsible for notifying students who are degree-seeking on the Madrid campus and are not in good standing and for providing opportunities for recovery.

This policy applies to all undergraduate students at every SLU location nationally and internationally. This policy does not govern the procedures for program probation, which are dictated by individual programs, schools, and colleges.

Students are responsible for knowing their academic status and may not appeal any part of the process based on lack of knowledge.

*Note:* Deviations from this policy and the processes required for implementing this policy with respect to degree-seeking students on the Madrid campus may be necessary or desirable and appropriate due to Spanish Law. In such cases, all reasonable efforts will be undertaken to ensure adherence to the spirit and purposes of this policy.
