As Saint Louis University faculty, our vision for the baccalaureate degree programs we offer is to provide an educational experience that helps actualize in each student a **well-developed mind, a generous heart, and a reflective soul**. Approved by the Faculty Senate and endorsed by the Office of the Provost in May 2016, the full SLU Baccalaureate Vision Statement articulates what is distinctive in a SLU undergraduate education, that education’s roots in Jesuit traditions, and the ways in which a SLU baccalaureate is tailored to the challenges of the 21st century. Our new Core SLOs “make more explicit and intentional the vision and commitments” of the faculty set forth in the vision statement. Here is one way to visualize how our SLOs align.
