OSHA Courses

**OSHA #500 Trainer Course in OSHA Standards for Construction (26hrs) $757**

Prerequisites: Students must have OSHA 510 in the past 7 years and have five years of safety related experience approved by the director.

Completion of this course allows the student to become an OSHA Authorized trainer in the OSHA Outreach Training Program and will be approved to conduct both 10- and 30-hour Construction Industry Outreach classes. Students must prepare a presentation on an assigned OSHA Construction Industry Outreach Training Program topic individually or as part of a group and successfully pass a written exam at the end of the course.

- St. Louis, MO . 1/21-1/24
- St. Louis, MO . 3/17-3/20
- St. Louis, MO . 6/2-6/5
- St. Louis, MO . 7/28-7/31
- St. Louis, MO . 9/22-9/25
- St. Louis, MO . 12/1-12/4

**OSHA #501 Trainer Course in OSHA Standards for General Industry (26hrs) $757**

Prerequisites: Students must have OSHA 510 in the past 7 years and have five years of safety related experience approved by the director.

Completion of this course allows the student to become an OSHA Authorized trainer in the OSHA Outreach Training Program and will be approved to conduct both 10- and 30-hour Construction Industry Outreach classes. Students must prepare a presentation on an assigned OSHA Construction Industry Outreach Training Program topic individually or as part of a group and successfully pass a written exam at the end of the course.

**OSHA #510 OSHA Standards for the Construction Industry (26hrs) $749**
This course covers OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, and special emphasis on those areas in construction which are most hazardous.

St. Louis, MO. 2/25-2/28
St. Louis, MO. 5/5-5/8
St. Louis, MO. 6/2-6/26

**OSHA 511 – Occupational Safety & Health Standards for General Industry ($749) Four Day Course**

This course covers OSHA Standards, policies, and procedures in general industry. Topics include scope and application of the OSHA General Industry Standards, general industry principles and special emphasis on those areas in general industry which are most hazardous.

St. Louis, MO. 2/4-2/7
St. Louis, MO. 3/31-4/3
St. Louis, MO. 5/12-5/15

**OSHA 521 – OSHA Guide to Industrial Hygiene ($749) Four Day Course**

This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological and ergonomic hazards, Permissible Exposure Limits (PEL), OSHA health standards, respiratory protection, engineering controls, OSHA sampling protocols and strategies, and workplace health program elements.

St. Louis, MO. 7/21-7/24

**OSHA 2015 – Hazardous Materials ($749) Four Day Course**

This course covers OSHA General Industry Standards and other consensus and proprietary standards that relate to the use of hazardous materials. Course topics include flammable and combustible liquids, compressed gases, LP-gases, and cryogenic liquids.

St. Louis, MO. 7/28-7/31

**OSHA 2045 – Machinery and Machine Guarding Standards ($749) Four-day Course**

This course covers the various types of common machinery, machine safe guards, and related OSHA regulations and procedures. Guidance is provided on the hazards associated with various types of machinery and the determination of proper machine safe guards.

St. Louis, MO. 3/31-4/3
St. Louis, MO. 11/10-11/13
Note: some course dates may change, please check our registration website
https://ceet.gosignmeup.com/dev_students.asp

**OSHA 2225 – Respiratory Protection ($749)  Four-day course**

This course covers the requirements for the establishment, maintenance, and monitoring of a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements.

St. Louis, MO . 12/1-12/4

**OSHA 2255 – Principles of Ergonomics ($649)  Three-day course**

This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Course topics include work physiology, anthropometry, musculoskeletal disorders, use of video display terminals, and risk factors such as vibration, temperature, material handling, repetition, and lifting and patient transfers in health care.

St. Louis, MO . 5/20-5/22

St. Louis, MO . 12/14-12/17

**OSHA 2264 – Permit-Required Confined Space Entry ($649)  Three-day course**

This course covers the safety and health hazards associated with permit-required confined space entry. Course topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation to evaluate atmospheric hazards, ventilation techniques, development and implementation of a confined space program, proper signage, and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

St. Louis, MO . 3/25-3/27

St. Louis, MO . 9/28-9/30

**OSHA 3015 – Excavation, Trenching and Soil Mechanics ($649)  Three-day course**

This course covers the OSHA Excavation Standard and safety and health aspects of excavation and trenching. Course topics include practical soil mechanics and its relationship to the stability of shored and unshored slopes and walls of excavations, introduction of various types of shoring (wood timbers and hydraulic), soil classification, and use of protective systems.

St. Louis, MO . 4/15-4/17

St. Louis, MO . 10/5-10/7

**OSHA 3095 – Electrical Standards ($749)  Four-day course**

This course covers OSHA Electrical Standards and the hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA Standards, policies, and procedures and applicable portions of the National Electrical Code (NEC). Students will participate in workshops on the safe and correct use of electrical testing equipment.

St. Louis, MO . 7/7-7/10

St. Louis, MO . 11/3-11/6
Note: some course dates may change, please check our registration website https://ceet.gosignmeup.com/dev_students.asp

**OSHA 3115 – Fall Protection ($649)**

**Three-day course**

This course covers the OSHA Fall Protection Standard for construction and an overview of fall protection methods. Course topics include principles of fall protection, components and limitations of fall arrest systems, and OSHA Standards and policies regarding fall protection. Students will participate in workshops demonstrating the inspection and use of fall protection equipment, residential construction fall protection, training requirements, and developing a fall protection program.

St. Louis, MO. 5/6-5/8

St. Louis, MO. 12/9-12/11

**OSHA 5402 – Update for Maritime Outreach Trainers ($599)**

**Three-day course**

Prerequisites: OSHA #5400 Trainer Course in OSHA Standards for the Maritime Industry.

This course is designed for individuals who have successfully completed OSHA course #5400 Trainer Course in OSHA Standards for the Maritime Industry and are active Outreach Training Program trainers. The course updates the OSHA Maritime standards, policies, and regulations.

St. Louis, MO. 6/3-6/6

**OSHA 5410 – OSHA Standards for the Maritime Industry ($899)**

This course covers OSHA policies, procedures, and standards for the maritime industry. Using the OSHA Maritime Standards as a guide, special emphasis is placed on those areas in the maritime industry which are most hazardous.

St. Louis, MO. 7/13-7/17

**OSHA 6005 – Collateral Duty Course for Other Federal Agencies ($749)**

**Four day course**

This course covers the OSH Act, Executive Order 12196, and the OSHA General Industry Standards. This course is intended for federal agency collateral duty safety and health personnel. With use of the OSHA General Industry Standards, special emphasis is placed on areas in general industry which are most hazardous. Upon course completion students will have the ability to define general industry terms, identify hazards that occur in general industry, determine appropriate standards and regulations for federal agencies, locate OSHA General Industry Standards, policies, and procedures, and describe the use of the OSHA General Industry Standards and regulations to effectively assist agency safety and health officers with inspection and abatement efforts.

St. Louis, MO. 3/24-3/27

St. Louis, MO. 9/29-10/2

**OSHA 7000 – OSHA Training Guidelines for Safe Patient Handling ($225)**

**One day course**

This course covers OSHA ergonomic guidelines for safe patient handling and methods to protect workers in all health care settings. Using OSHA’s Ergonomics Guidelines for Nursing Homes as a basis for any healthcare facility, this course focuses on analyzing and identifying ergonomic hazards and practical solutions to address these issues.

St. Louis, MO. 2/5

St. Louis, MO. 12/18
Note: some course dates may change, please check our registration website https://ceet.gosignmeup.com/dev_students.asp

**OSHA 7005 – Public Warehousing and Storage ($225)  One day course**

This course covers the hazards and injuries likely to occur in public warehousing and storage operations, including encounters with powered industrial trucks, material handling, lifting and ergonomics, hazard communication, walking and working surfaces, and life safety including fire protection and evacuation. This course is intended for warehouse workers, supervisors, and employers responsible for developing safe work practices and procedures in a warehouse setting.

St. Louis, MO . 6/9

**OSHA 7100 – Introduction to Machinery and Machine Safeguarding ($150)  Half day course**

This course covers the process to identify, select and properly safeguard machinery to protect employees and others in the work area and deliver appropriate training in safe work practices. Course topics include types of machinery requiring guarding, point of operation, emergency eyewash/shower requirements, hazard communication, OSHA Machinery and Machine Guarding Standards violations, and corrective actions.

St. Louis, MO . 1/21  St. Louis, MO . 10/23

**OSHA 7105 – Evacuation and Emergency Planning ($150)  Half day course**

This course covers OSHA requirements for emergency action and fire protection plans. Course topics include purpose and requirements of emergency action and fire prevention plans, elements of emergency evacuation plans, and features of design and maintenance of emergency exit routes. Students will participate in workshops pertaining to the development of emergency action plans.

St. Louis, MO . 4/23

**OSHA 7115 – Lockout/Tagout ($225)  One day course**

This course covers the role and responsibility of the employer to develop and implement an energy control program, or lock-out/tag-out (LOTO) for the protection of workers while performing servicing and maintenance activities on machinery and equipment.

St. Louis, MO . 2/11  St. Louis, MO . 7/24
St. Louis, MO . 4/3  St. Louis, MO . 11/20

**OSHA 7125 – Introduction to Combustible Dust Hazards ($225)  One day course**

This course covers the hazards posed by combustible dust within general industry. The course topics include recognizing the hazards and risks associated with combustible dust, control of electrical installation hazards, and developing controls and strategies to prevent or mitigate combustible dust fires and explosions.

St. Louis, MO . 6/24  St. Louis, MO . 10/26
OSHA 7200 – Bloodborne Pathogens Exposure Control for Healthcare Facilities ($225)  One day course

This course covers the development and implementation of Exposure Control Plans (ECP) for healthcare facilities. The target audience is the program administrator, manager, or other personnel designated with the responsibility of developing a Bloodborne Pathogens ECP for a healthcare facility. Course topics include understanding the OSHA Bloodborne Pathogens Standard, determining potential exposure and methods of control, developing an ECP, vaccinations, exposure incidents, training, and record keeping.

St. Louis, MO . 8/7

OSHA 7205 – Health Hazard Awareness ($225)  One day course

This course covers common health hazards that are encountered in the workplace. These health hazards include exposure to chemicals, asbestos, silica and lead. Course topics include identification and evaluation of health hazards and their sources of exposure, health hazard information, and engineering and work practice controls

St. Louis, MO . 12/7

OSHA 7210 – Pandemic Influenza Preparedness ($225)  One day course

This course covers recognizing hazards and risks associated with a pandemic influenza event and developing strategies to assist a business, community, or family with realistic preparation for a pandemic event.

St. Louis, MO . 7/24  St. Louis, MO . 10/30

OSHA 7225 – Transitioning to Safer Chemicals ($225)  One day course

This course will provide participants with information about and hands-on experience with the process for transitioning to safer chemicals, as well as the key methods, tools, and databases that can assist in this process. More specifically, the course will guide participants through OSHA’s seven-step substitution planning process for understanding and evaluating chemical use, identifying and assessing alternatives, and implementing those alternatives that are safer.

St. Louis, MO . 7/15

OSHA 7300 – Understanding OSHA’s Permit-Required Confined Space Standard ($225)  One day course

This course covers the requirements of the OSHA Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements; it does not feature
Note: some course dates may change, please check our registration website https://ceet.gosignmeup.com/dev_students.asp

workshops (instrumentation, control methods and testing) which are included in the OSHA 2264 Permit-Required Confined Space Entry.

St. Louis, MO . 1/24  St. Louis, , MO . 4/6  St. Louis, MO . 11/23

**OSHA 7400 – Noise Hazards in the Construction Industry ($225) One day course**

This course covers the evaluation and reduction of noise hazards in the construction industry. Course topics include OSHA Construction Noise Standards, properties of sound, noise-induced hearing loss, noise exposure control, selection and use of hearing protection, conducting sound level surveys, and worker training. The target audience is the construction employer or representative designated with the responsibility to develop a construction noise program.

St. Louis, MO . 9/22

**OSHA 7405 – Fall Hazard Awareness for the Construction Industry ($225) One day course**

This course covers the identification, evaluation, prevention and control of fall hazards in the construction industry. The course focuses on falls to a lower level rather than falls to the same level resulting from slips and falls.

St. Louis, MO . 1/28  St. Louis, MO . 8/13

**OSHA 7410 – Managing Excavation Hazards ($225) One day course**

This course covers the roles and responsibilities of the employer to educate and assign a competent person to excavation sites. Course topics include understanding and application of definitions relating to the OSHA Excavation Standard, excavation hazards and control measures, soil analysis techniques, protective system requirements and emergency response.

St. Louis, MO . 8/7

**OSHA 7415 Construction Industry Hazards and Prevention Strategies ($399) Two-day course**

This course provides federal and public sector employees with pertinent information regarding OSHA requirements and guidelines applicable to construction industry activities and operations.

St. Louis, MO. 4/7-4/8  St. Louis, MO. 8/17-8/18

**OSHA 7500 – Introduction to Safety and Health Management ($225) One day Course**

This course covers the effective implementation of a company’s safety and health management system. The course addresses the four core elements of an effective safety and health management system and those central issues that are critical to each element’s proper management.

St. Louis, MO . 2/17  St. Louis, MO . 8/14

**OSHA 7505 – Introduction to Incident (Accident) Investigation ($225) One day course**
Note: some course dates may change, please check our registration website
https://ceet.gosignmeup.com/dev_students.asp

This course covers an introduction to basic accident investigation procedures and describes accident analysis techniques. The target audience is the employer, manager, employee or employee representative who is involved in conducting accident and/or near-miss investigations.

St. Louis, MO . 3/5  St. Louis, MO . 4/21

**OSHA 7510 – Introduction to OSHA for Small Businesses ($150)  Half day course**

This course covers an introduction to the Occupational Safety and Health Administration (OSHA) and the OSH Act for owners and managers of small businesses. Course topics include an introduction to OSHA, OSHA Standards, the inspection process, implementing a safety and health program, worker training requirements and assistance available to small businesses.

St. Louis, MO ............. 3/6  St. Louis, MO .......... 8/21

St. Louis, MO ............. 5/25

**OSHA 7845 – Recordkeeping Rule Seminar ($150)  Half day course**

This course covers OSHA requirements for maintaining and posting records of occupational injuries and illnesses, and reporting specific cases to OSHA. Topics covered include identification of OSHA requirements for recordkeeping, posting and reporting and to complete OSHA Form 300 Log of Work-Related Injuries and Illnesses, OSHA Form 300 A Summary of Work-Related Injuries and Illnesses, and OSHA Form 301 Injury and Illness Incident Report.

St. Louis, MO ............. 3/6  St. Louis, MO .......... 8/21

St. Louis, MO ............. 5/28  St. Louis, MO .......... 11/16
