  Saint Louis University  
  Environmental Health and Safety  
  Attn: Radiation Safety Officer  
  1402 S. Grand Blvd., Caroline Building C305  
  St. Louis, MO 63104  
  Fax: (314) 977-5560  
  Phone: (314) 977-8608

*All records are stored on site. Most records can be made available with 2 to 3 days; please allow up to 15 days for a written response.*

---

\(^1\) Employee exposure records include workplace monitoring of a toxic substance or harmful physical agent (chemical substance, biological agent, for example bacteria, virus, fungus, etc.), or physical stress (noise, heat, cold, vibration, repetitive motion, ionizing and non-ionizing radiation, etc.), and Material Safety Data Sheets (MSDS) or Safety Data Sheets (SDS) indicating that the material may pose a hazard to human health; see 29 CFR 1910.1020 for additional details.

\(^2\) Employee medical record means a record concerning the health status of an employee which is made or maintained by a physician, nurse, or other health care personnel, or technician, including: medical and employment questionnaires or histories (including job description and occupational exposures), results of medical examinations and laboratory tests, medical opinions, diagnoses, progress notes and recommendations, first aid records, descriptions of treatments and prescriptions and employee medical complaints. Limited exceptions are specified in 29 CFR 1920.1020.
